

Statistical Section

The Statistical Section presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplemental information says about the government's overall financial health.

Statistical information is different from financial statements in that the statistics usually cover more than one fiscal year and may present non-accounting information. The following tables present financial trends, information about the fiscal capacity of the government, and social and economic information, as necessary for complete disclosure and understanding of the City's financial activity. The information presented in these tables is not required for fair presentation in conformity with accounting principles generally accepted in the United States of America and is therefore not covered by the auditor's opinion.
