

Mine Falls Park Nashua NH

Key to points:

1. **Mill Pond** — This entrance provides access to the Mill Pond and the canal for canoes and small boats, and entry to the Mine Falls trail network east and west. Parking is available in the adjacent commuter lot.

2. **Stellos Stadium** — This westernmost park entrance includes a boat launch for access to the Nashua River above the dam. It is also the nearest entrance to the 1886 historic Gatehouse. The entrance is through the stadium access road.

3. **Lincoln Park** — Located at the south end of Coliseum Avenue, Lincoln Park offers tennis courts, ballfields, and easy access to the Mine Falls trail network via the Nashua River footbridge. This is the only access north of the river.

4. **Nashua High School South**— A paved trail enters the park from the back of the school parking lot along the canal.

5. **Whipple Street** — This entrance accesses the trails along the Nashua River, canal, soccer, and softball fields, and is located at the midpoint of the paved trail system.

6. **North 7th Street** — Located in a residential area near the Boys and Girls Club on Perry Avenue, this entrance gives access to the canal and trails in the park from the eastern side.

7. **Pine Street (Millyard)** — This entrance is at the eastern end of the original Spine Road, which was used by the Nashua Manufacturing Company to maintain the power canal system.
