- e. Periods of time, stated as a number of days, shall be calendar days.
- f. It is the responsibility of all Offerors to examine the entire *Request For Proposal* package and seek clarification of any item or requirement that may not be clear and to check all responses for accuracy before submitting a bid. Negligence in preparing a Proposal confers no right of withdrawal after proposal due date and time.

2. **INQUIRIES:** Any question related to the *Request For Proposal* shall be directed to the Buyer whose name appears on the front. The Offeror shall not contact or ask questions of the department for which the requirement is being procured. Questions should be submitted in writing when time permits. The Buyer may require any and all questions be submitted in writing at the Buyer's sole discretion. Any correspondence related to a *Request For Proposal* should refer to the appropriate *Request For Proposal* number, page, and paragraph number. However, the Offeror shall not place the *Request For Proposal* number on the outside of any envelope containing questions since such an envelope may be identified as a sealed proposal and may not be opened until after the official *Request For Proposal* due date and time.

3. **PROSPECTIVE OFFERORS CONFERENCE:** A prospective offerors conference may be held. If scheduled, the date and time of this conference will be indicated on the cover page of this document. The purpose of this conference will be to clarify the contents of this *Request For Proposal* in order to prevent any misunderstanding of the City's position. Any doubt as to the requirements of this *Request For Proposal* or any apparent omission or discrepancy should be presented to the City at this conference. The City will then determine if any action is necessary and may issue a written amendment to the *Request for Proposal*. Oral statements or instructions will not constitute an amendment to this *Request for Proposal*.

4. **LATE PROPOSALS:** Late Proposals will not be considered, except as provided by the **City of Peoria Procurement Code**. A vendor submitting a late proposal shall be so notified.

5. **WITHDRAWAL OF PROPOSAL:** At any time prior to the specified proposal due date and time, a Vendor (or designated representative) may withdraw the proposal. Telegraphic (facsimile) or mailgram proposal withdrawals will not be considered.

6. **AMENDMENT OF PROPOSAL:** Receipt of a Solicitation Amendment (COP Form 207) shall be acknowledged by signing and returning the document prior to the specified proposal due date and time.

7. **PAYMENT:** The City will make every effort to process payment for the purchase of goods or services within thirty (30) calendar days after receipt of goods or services and a correct notice of amount due, unless a good faith dispute exists as to any obligation to pay all or a portion of the account. Any proposal that requires payment in less than thirty (30) calendar days shall not be considered.

8. **NEW:** All items shall be new, unless otherwise stated in the specifications.

9. **DISCOUNTS:** Payment discount periods will be computed from the date of receipt of material/service or correct invoice, whichever is later, to the date Buyer's payment is mailed. Unless freight and other charges are itemized, any discount provided will be taken on full amount of invoice. Payment discounts of thirty (30) calendar days or more will be deducted from the proposal price in determining the low bid. However, the Buyer shall be entitled to take advantage of any payment discount offered by the Vendor provided payment is made within the discount period.

10. **TAXES:** The City of Peoria is exempt from Federal Excise Tax, including the Federal Transportation Tax. Sales tax, if any, shall be indicated as a separate item.

11. **VENDOR REGISTRATION:** After the award of a contract, the successful Vendor shall have a completed Vendor Registration Form (COP Form 200) on file with the City of Peoria Materials Management Division.

#### 12. AWARD OF CONTRACT:

- a. Unless the Offeror states otherwise, or unless provided within this *Request For Proposal*, the City reserves the right to award by individual line item, by group of line items, or as a total, whichever is deemed most advantageous to the City.
- b. Notwithstanding any other provision of this *Request For Proposal*, The City expressly reserves the right to:
  - (1) Waive any immaterial defect or informality; or
  - (2) Reject any or all proposals, or portions thereof, or
  - (3) Reissue a *Request For Proposal*.
- c. A response to a *Request For Proposal* is an offer to contract with the City based upon the terms, conditions and specifications contained in the City's *Request For Proposal* and the written amendments thereto, if any. Proposals do not become contracts unless and until they are accepted by the **City Council**. A contract is formed when written notice of award(s) is provided to the successful Offeror(s). The contract has its inception in the award document, eliminating a formal signing of a separate contract. For that reason, all of the terms and conditions of the procurement contract are contained in the *Request For Proposal*; unless modified by a Solicitation Amendment (COP Form 207) or a Contract Amendment (COP Form 217).

The City may, at its sole discretion, conduct random verification of the employment records of Contractor and any Subcontractors to ensure compliance with the Contractor Immigration Warranty. Contractor agrees to assist the City in regard to any random verifications performed.

The failure of the City to insist upon the strict performance of any term or condition of the contract or to exercise or delay the exercise of any right or remedy provided in the contract, or by law, or the City's acceptance of and payment for materials or services, shall not release the Contractor from any responsibilities or obligations imposed by this contract or by law, and shall not be deemed a waiver of any right of the City to insist upon the strict performance of the Contract.

## Water and Wastewater System Optimization Study

### I. Objective

It is the intent of the City of Peoria ("Peoria") to optimize the operation of Peoria's Water and Wastewater systems through a thorough and detailed study of the system operations while utilizing the existing hardware, software and support facilities that the City currently uses.

### II. Background

The City of Peoria Utilities Department is responsible for the administration, design, operation and maintenance of the city-owned water and wastewater systems. The City of Peoria is soliciting proposals from qualified consultants and/or consultant teams to provide an Operations Optimization study/report to improve the City's water and wastewater system operating efficiencies. Operations Optimization is a structured and disciplined approach to planning and scheduling water and wastewater system operations using improved business processes, revised organizational structure, and advanced technologies.

### III. System Description

The City of Peoria has extensive water and wastewater systems (a listing of the major components of these systems is listed in Exhibit A). Peoria's water system includes three (3) separate public water systems (Peoria Main, Vistancia, and Quintero) with two surface water treatment plants, 35 operating wells, 27 reservoirs, 33 booster stations, and 859 miles of main. Peoria's wastewater system includes three (3) separate wastewater collection systems (Peoria Main, Vistancia, and Quintero) with four (4) wastewater treatment facilities (Butler, Beardsley, Jomax and Quintero), 12 lift stations, and 708 miles of main. A Supervisory Control and Data Acquisition ("SCADA") system provides information on these systems to two 24-7 control rooms (Greenway Water Treatment Facility for all Water operations and the Butler Water Reclamation Facility for wastewater operations). The Beardsley and Jomax Water Reclamation Plants have SCADA control during weekday operating hours but are covered on night and weekends by Butler. The Quintero Water Reclamation Facility has not started operations due to the slow development of the Quintero community.

### IV. Scope of Services

The nature of the work is generally described as a Water and Wastewater System Optimization Study to be completed in less than four (4) months from the award to the contract.

#### A. Task 1: Optimization Study

The first phase of this project is to conduct an optimization study with a final report that recommends operating parameters, protocols, procedures, and guidance designed to optimize the systems operations with the goals of:

1. Lowering operating costs with an emphasis on energy savings.
2. Improving water resource management through optimizing surface and groundwater usage considering Peoria's water resource portfolio of CAP water, SRP water, and groundwater. Optimization should consider water supply costs (short-term and long-term) as well as supply and treatment limitations.

3. Improving maintenance coordination with system operations.
4. Lowering future capital costs by establishing a prioritization system for future projects.
5. Improving system reliability and security through enhanced planning and ongoing data analysis.
6. Improving or maintaining water quality.

The recommendations provided will concentrate on changes that involve low cost technology and personnel changes that can be accomplished relatively quickly (within one year). Higher cost changes and recommendations that will take longer to implement should be considered in Task 2 below.

#### Deliverables:

2. Project Schedule
3. Monthly Updates
4. Monthly Expenditure Reports
5. Optimization Study Report (draft and final) as described above (electronic copy plus 1 original and 3 hard copies)
6. Optimization Study Briefing to Utility Department Management

#### B. Task 2: Program Development Plan

The second phase of the project will be to provide a program development report for system optimization measures that involve higher cost investments and proposed changes that will require in excess of one year to implement. This phase will evaluate recommend operating systems or programs to assist in the automated implementation of operations optimization. This system must be able to integrate with the Utility Department's current Supervisory Control and Data Acquisition Systems (SCADA). The final product of this phase will be a report that creates a roadmap for the Utility Department to use in developing future systems to ensure operations optimization can be maintained and sustained.

#### Deliverables:

1. Project Schedule
2. Monthly Updates
3. Monthly Expenditure Reports (can be consolidated in a single submittal with Task 1)
