REQUEST FOR QUALIFICATIONS FOR CITY OF PEORIA

SOLICITATION # P10-0059

FEDERAL LEGISLATIVE CONSULTING SERVICES

(CATEGORY 2)

PREPARED BY:

THE PARTNERS & ASSOCIATES OF FIRSTSTRATEGIC

AS OF:

APRIL 15, 2010

REQUEST FOR QUALIFICATIONS

SOLICITATION P10-0059 – FEDERAL LEGISLATIVE CONSULTING SERVICES

INTRODUCTION

The core values of our company are reflected in our mission, “Succeeding for our clients and improving our community.” At the heart of FirstStrategic is the motivation for each member to be part of an organization that takes pride in making personal and professional commitments that ultimately improve the quality of life in our community. We founded and operate our company always mindful of this purpose, and our approach to this project will be no different.

The *Phoenix Business Journal* has described FirstStrategic as, “...heavy hitters from both sides of the political aisle and the business world.” What makes the FirstStrategic lobbying team so unique and successful is our bi-partisanship make-up. This distinct nature combined with our years of cultivating long-term relationships with elected officials allows us to identify opportunities for the City of Peoria in both the short and long-term. Networking, trust and constant communication will be key factors towards our ability to provide federal representation and consultation for the City of Peoria.

For the last six years, we have used our purpose statement as a guide. It states, “FirstStrategic embodies the best in integrated communications, public affairs strategic thinking and tactical solutions. Our client-partners represent who we are as well as what we do. Our goal is to help them achieve success while serving our community.” Developing and maintaining positive relationships on both sides of the aisle at every level of government is crucial to fulfilling our firm’s purpose statement day in and day out. Our successful track record serves as a testament to the effectiveness of our firm’s mission and relationship building abilities.

FirstStrategic fully believes we have the necessary experience, knowledge and ability to fulfill the scope of work for this project; however we also have created alliance partnerships with Washington D.C. based firms when it has been in our client’s strategic best interest. We have been providing services in the areas of state legislative consulting, federal legislative consulting, community outreach and development and presentation of promotional materials since the inception of our firm, with a vast majority of our federal clients either being governmental entities or non-profits and we look forward to the opportunity to extend our services to the City of Peoria.

PROJECT MANAGEMENT METHOD

FirstStrategic is made up of six partners and three associates. We distinguish ourselves from other firms because we are not just “hired guns.” Instead, we have continuing business relationships with each of our founding client-partners. FirstStrategic takes our partner relationships with our clients very seriously. We provide our clients with the necessary time to be successful and work with them to develop a relationship that allows each of them to call upon us on a daily basis if needed. We will be available to your team on a 24/7 basis.

FirstStrategic is committed to providing experienced consulting services for government and community relations to ensure that the City of Peoria’s efforts will be successful. The firm will work with city staff to establish goals and objectives during the initial project planning process and prior to connecting with local officials, community leaders and stakeholders. This will strengthen the client-partner relationship as both parties will share the same clear vision and direction of where the project will take us and provide a map of where we want to be at the end of the project.

FirstStrategic's structure is built to maximize direct partner involvement. This organization is advantageous for clients because it means that the partners themselves will be doing a substantial portion of the work. Coordination of projects with the City of Peoria will occur primarily at the partner level with associates providing support in any area needed.

Overall, the members of FirstStrategic share responsibility for working with almost every client-partner. The majority of the time, one or two partners along with an associate will be leads for a client-partner, but all other members of the firm will step in as needed and also fill a consistent supporting role. During the preliminary planning phase, the firm assesses the unique circumstances, demands, and goals of each project and/or client-partner in order to purposefully and strategically make the appropriate staff member assignments. However, FirstStrategic does so with the understanding that the challenges that our client-partners and projects face can vary and change, and the firm possesses the adaptability and flexibility to adjust strategy and resources accordingly. The City will have access to the all of FirstStrategic's resources including its full staff at any point in time it becomes necessary.

Our experience in federal appropriations and navigating the often complex system of the federal budgeting process and legislation will be key to garnering more resources and support for the City of Peoria's efforts. FirstStrategic associates, directed by our partners, will provide the necessary research and background information to the City on federal administrative policy, funding and grant opportunities for city programs, reports and memoranda impacting city operations, information on Congressional hearings, reports, and testimony on issues affecting city programs. The FirstStrategic associates will also be responsible for tracking legislation and appropriation requests as it goes through Congress and informing the City of Peoria of any potential changes in legislation. Additionally, we are will willing to provide daily and weekly updates to City of Peoria on the status of ongoing legislation that could potentially affect the City.

When necessary, the FirstStrategic staff will arrange for meetings and phone calls with members of the Congressional Delegation, other elected or government officials and stakeholders. For any meeting, FirstStrategic will ensure that any City of Peoria official is staffed and appropriately briefed with messaging, talking points and background information. FirstStrategic will work with city staff and Council Members to determine when it is best for our team to meet with elected officials and when it would be advantageous to have City members present. FirstStrategic has no hard rules about direct client contact with elected and government officials, we will work with you to determine guidelines for communication for both our team and the City to follow. FirstStrategic's public and government affairs philosophy engages both the assets of the firm and our client, endeavoring to maximize the effectiveness of our client-partners' personnel at the appropriate time during public and government advocacy efforts.

The relationships that FirstStrategic has with the Arizona Congressional Delegation would be an asset to the City of Peoria's federal relations and advocacy efforts. The firm, due to its bipartisan nature, has relationships with all members of the delegation and would be able to identify which members would be important in assisting the City of Peoria with obtaining its goals. Our extensive experience working at the state and federal level, along with our experience within the transportation, energy and land use sectors will help us to identify what are the best options for the City of Peoria, who to communicate the City's needs and capabilities to and how to smartly advocate at all levels of government to all stakeholders.

Office Location

FirstStrategic, LLC is a registered limited liability corporation in the State of Arizona. The six partners of the firm are Wes Gullett, Kurt Davis, Steve Roman, Barry Dill, Bettina Nava and Marcus Dell'Artino. Additionally, there are three associates at the firm – Sophie O'Keefe-Zelman, Mia Ricardo and Tunga Le. The address of the principal office location is 300 West Clarendon Avenue, Suite 460, Phoenix, Arizona 85013, and it is the home office for each staff member. They may all be reached at the address previously listed and by phone at (602) 266-6565.

As value added to the City of Peoria, the firm will partner with Pat Mitchell of Strategic Impact, a Washington DC based firm. More information on the partnership is provided under Staff Assignments and Experience. The office location for Strategic Impact is 444 North Capitol Street NW, Suite 840, Washington DC 20001.

OUR EXPERIENCE

Areas of Expertise & Bi-Partisanship

FirstStrategic will be able to provide all the services listed in the Scope of Services. The firm possesses extensive experience acting as a liaison between different organizations, governments, staff, and other entities. We are the best firm when it comes to interfacing with different levels of government on key municipal issues. We understand the importance of communication and having information ready on hand, such as copies of bills, budget documents, and committee reports. We are also able to analyze the greater picture and take into consideration all aspects of an issue to develop advocacy strategies, issue papers and position statements.

Our staff's diverse experience and skills will be key in appropriately differentiating and tailoring communications to the wide variety of individuals, such as elected officials and city staff, as well as other parties and organizations involved in the legislative process. Additionally, our wide network of contacts, built largely in part due to our bi-partisan nature, allows us to reach out to both sides of the aisle in a strategic, organized and professional manner. It is also of strategic value to have a firm that has ties to both the legislative and executive branch of government and can effectively bridge between both the branches and parties. These networks will allow us and the City of Peoria to work with elected officials and staff at every level of government in the state to accomplish our goals.

FirstStrategic's legislative advocacy experience and wide network extend well beyond the state and local levels. The firm offers intimate knowledge of the inner-workings of the executive, judicial and legislative branches at all levels of government acquired through past high level federal and state government positions held by individual staff members and projects previously completed by the firm. At this level, the bi-partisan nature of the firm has and will continue to be advantageous for client-partners by extending their ability to engage both parties in a meaningful, productive manner.

Due to breadth of the federal government and legislative process, accurate and timely communication becomes increasingly important to goal attainment. FirstStrategic has a proven track record of providing client-partners up-to-date briefings, policy analyses, budget and committee reports in addition to a superior ability of developing appropriate advocacy strategies and tools that can be used to efficaciously communicate our client-partners' positions on key legislative issues. We have also partnered with best of class Washington D.C. based firms to expand the reach of our client-partners, and we will be able to provide this same type of 24/7 'ground support' for the City of Peoria if it is deemed necessary. All in all, it is our experience and expansive network combined with our firm's steadfast commitment to "Succeeding for our clients and improving our community" that the City of Peoria can rely on to achieve its federal legislative goals.

Project Examples & References

Over the years, FirstStrategic and the partners of the firm have legislatively represented multiple clients at the local, state and federal levels. As mentioned previously, the members of the firm have worked for many years at municipalities, agencies and departments at all levels of government, crafting and analyzing public policy. This background coupled with our extensive experience representing clients from many fields including education, government, and healthcare give us the distinct ability to understand how various polices and regulations impact the operations and visions of these organizations, and, more importantly, how to translate that understanding into successful advocacy on behalf of our client-partners to elected officials and staff. Below are three examples of our state legislative consulting client-partners. Below are three examples of our federal legislative consulting clients.

1. Phoenix Children's Hospital (PCH)

Project Description

FirstStrategic represents Phoenix Children's Hospital at the federal level, collaborating with their public affairs team to secure funding for various hospital facilities and programs and to enhance the hospital's ability to participate in healthcare public policy discussions and debates at the state and national levels. As PCH's primary federal legislative advocates, the firm maintains a consistent, on-going dialogue with Congressional members and their respective staffs in order to educate

them about the hospital's mission and impact statewide as well as PCH's views on various healthcare public policy issues such as DSH, GME, 340b, Medicaid and healthcare reform. The firm also actively engages with many national medical and healthcare associations on behalf of Phoenix Children's Hospital and partners with them on shared policy initiatives. Similar to other client-partners, PCH receives regular updates on the political landscape and legislative developments through a variety of methods including election analyses, legislation tracking, and public policy briefs. In the last three years, FirstStrategic has helped to elevate Phoenix Children's Hospital's reputation and acquired federal funding vital to the hospital's efforts to update their technological infrastructure with an electronic medical records system. Also, the firm assisted PCH with the acquisition of millions in federal funding for medical equipment such as a CT Scanner and construction of a central energy plant for a new patient tower.

2. Translational Genomics Research Institute (TGen)

Project Description

FirstStrategic has represented Translational Genomics Research Institute since its inception and aids the organization with community relations, press relations, Arizona fundraising, stakeholder communications and management, local, state and federal government affairs and interface, and university relations. FirstStrategic also assisted in organizing efforts to recruit a prominent national board of directors. Currently, FirstStrategic works closely with TGen during the Arizona and federal legislative sessions to secure appropriations for their projects. Since 2003, the client partnership has yielded over \$22 million in funding, including an appropriation from the Department of Homeland Security, Department of Defense, Department of Justice, and other governmental and private sector entities that established TGen North. This new facility in Flagstaff focuses on Pathogen Genomics, utilizing and advancing technology in the biodefense arena. Federal funding has also been utilized to build-out TGen's laboratories in downtown Phoenix, facilities that are used in research partnerships with the state's three major universities and many other state and national organizations.

Throughout the client-partner relationship, FirstStrategic has kept TGen up-to-date on developments in the political environment and legislation that affect the organization and the biotech industry overall at both the federal and state levels. This was executed consistently on an informal basis as well as through briefings and presentations at formal meetings monthly and before/after elections. FirstStrategic's exceptional ability to inform elected officials how their support of TGen translates into a substantial positive impact for the state overall has attributed to the organization's success.

3. Northern Arizona University (NAU)

Project Description

FirstStrategic represents Northern Arizona University at the federal level, assisting the institution with the acquisition of funding for a multitude of educational initiatives and programs. The firm has also provided advice to NAU on its positioning and raising the university's profile statewide strategically to achieve not only legislative advocacy goals but also advancement of NAU's overall mission. In the last two years, FirstStrategic helped secure millions for the establishment of TGen North, a research facility that focus on diagnostic, analytic, forensic and epidemiologic research related to pathogens important to medicine, public health and biodefense. The center was made possible by NAU's partnership with the Translational Genomics Research Institute, and many of its facilities such as Biosafety Level 3 facilities are located on the university's campus. Additionally, through FirstStrategic's guidance, NAU successfully applied for federal funding appropriations requests for community college partnerships, student support programs and other university programs such as the ecological research institute.

Staff Assignments and Experience

FirstStrategic is comprised of public affairs professionals whose combined experience in public sector government relations in Arizona totals more than 100 years. The team of professionals that make up FirstStrategic has worked in government and the private sector managing complex government relations, community outreach and public relations campaigns at every level. The unique bi-partisan make-up of the firm provides us with the ability to approach varying public and governmental affairs challenges in exceptional ways.

For the City, we foresee partners Kurt Davis and Barry Dill taking the lead roles on the federal legislative representation due to their extensive knowledge and experience with the US Congress, Senate and its major players. As mentioned previously, the firm will first examine the City's goals and develop a strategy that will take into consideration the most effective combination of staff members, in terms of the strength of their relationships and areas of expertise. For example, partners Bettina Nava and Wes Gullett may also step into the lead roles and/or provide support due to their unique relationships with various offices and prior work experience in a variety of policy areas at the federal level. Additionally, the firm has in the past partnered with best in class Washington DC based firms to provide additional support that will assist the City with goal attainment. For the City of Peoria, the firm will partner with Pat Mitchell, head of the firm Strategic Impact, located in Washington DC. Mitchell will provide the City with on the ground support whenever needed. Mitchell has served in Senator Deconcini's office, as chief of staff for Congresswoman Louise Slaughter, and as assistant attorney general for Arizona. His firm Strategic Impact specializes in appropriations work in many areas including education and transportation. Mitchell currently assists our firm with providing support on Phoenix Children's Hospital.

During the review process, the firm will examine if the City could benefit from additional outside expertise. The firm will then acquire it from a best in class vendor and utilize it as needed. Regardless, the full FirstStrategic staff is available to the City of Peoria and will provide support as well as step in to the lead role(s) when it is determined to be in the best interest of the City.

As a result, biographical resumes have been provided for all staff members in addition to our partner Pat Mitchell in Appendix A, and the projects listed below reflect their experience working on state legislature clients. In Appendix B is an addendum to

the biographical resumes. It is a short listing of all the boards, associations, campaign and leadership positions the members of the staff have served or are currently holding.

1. Sonoran Institute

Project Description

FirstStrategic gained an in-depth understanding of the Sonoran Institute's policy initiatives in the areas of land conservation and environmental sustainability. Afterwards, the firm researched the issue and ascertained the feasibility of the organization's goal attainment based on the current political climate. Based on the feasibility study findings, the firm then crafted and began implementation of a strategic plan that effectively communicated to the Arizona Congressional Delegation and Senate members the importance of the initiatives while soliciting the input of the elected officials and their staff. As a part of the effort, FirstStrategic provides counsel on communications methods and tailored collateral materials such as fact sheets, briefs, analyses, etc.

FEE STRUCTURE

FirstStrategic offers our services to the City of Peoria at the rate of \$167/hour and estimate that there will be an average 15 hours/week. The hour will include the collective work of the partners and associates on the City of Peoria project. On average, this would equal \$10,000/month for federal legislative consulting services. The firm is open to a monthly retainer system and negotiations on the suggested rate if the City prefers. If the City would like to partner with the firm in multiple categories, a combined fee or an overall reduced rate for all categories can be negotiated.

FirstStrategic will also bill the City of Peoria for all pre-approved costs associated with production of communications materials, collateral materials, and travel outside the Phoenix Metropolitan area associated with duties required by the scope of work.

CONCLUSION

We believe that FirstStrategic is the right partner to fulfill the goals and aspirations of the City of Peoria. FirstStrategic has the knowledge and networks to successfully design and implement strategic plans for federal legislative representation. We are excited about the opportunity to work with the City of Peoria and hope to begin a long and significant partnership.

In 2009, Dill was awarded "Best Lobbyist" in Arizona by *The Arizona Capitol Times* newspaper, as voted by his peers.

Dill's entry into politics began in 1986 when he was chosen to serve on U.S. Senator Dennis DeConcini's Tucson staff.  - f. It is the responsibility of all Offerors to examine the entire *Request For Proposal* package and seek clarification of any item or requirement that may not be clear and to check all responses for accuracy before submitting a bid. Negligence in preparing a Proposal confers no right of withdrawal after proposal due date and time.

The Offeror shall not contact or ask questions of the department for which the requirement is being procured. Questions should be submitted in writing when time permits. SECTION 1 - INTRODUCTION

- 1.1 Overview** City of Peoria Intergovernmental Affairs Office (City) requests proposals from firms interested in providing consulting and technical support services for government and community relations. Experience working with municipalities or other government entities is highly desirable.
- 1.2 Background** The City of Peoria, Arizona was incorporated in 1954 and is located in the northwest metropolitan valley area. It is governed by an elected Mayor and Council, with administration provided by a City Manager. The City operations are supported by approximately 1,000 full-time and 300 part-time employees.
- The City limits consist of approximately 178 square miles of residential, commercial, industrial and municipal developments. The City has an estimated population of 150,000.
- 1.3 Statement of Intent** It is the intent of the City to create multiple source contracts that will fulfill the need for a variety of City government needs. Firms may offer services for all or a specialty subset of the classifications listed in the Scope of Work. The initial awarded firms will be awarded term contracts, which will be extended per the Special Terms and Conditions, Page 8, Paragraph 7.
- The City will accept additional proposals from firms prior to the extension of current awarded contracts. The submitted proposals will be evaluated based on the existing criteria and may be awarded if deemed appropriate. Any newly awarded contracts would be in affect only for the remainder of the original contract term.
- Consultants that are awarded contracts from the original solicitation will not be required to re-submit proposals, but will have their contracts extended per the terms and conditions if deemed appropriate at time of renewal.
- No selected consultant is guaranteed a project. The City reserves the right to waive use of the selected consultants where, in the City's judgment, other selection methods may be more appropriate.
- Once the City awards an on-call contract to multiple qualified firms, authorized City staff will contact the firms whose service offerings most closely match the services needed for a particular project. Those selected firms will be asked to provide specific qualifications and price quotes for the project at hand in order for an appropriate decision to be made by the City prior to final recommendations and project award. Qualifications and specific skills will be equally considered, along with cost, in determining the most responsive firm and, subsequently, receiving award of the project.
- 1.4 Period of Service** Consultant's services shall be requested and performed on an as-needed basis. The contract for consultants for Category 1, 2, 3 and 4 will become effective on or about July 1, 2010, and will be in effect for one (1) year, through on or about June 30, 2011. Consultant shall perform services in accordance with the schedule(s) provided by City staff.
