Issue 2

THE ABCs OF CONSTRUCTION

This month, Combs Construction Company, Inc. is grading and placing aggregate base course (ABC), which serves as a foundation material for asphalt. This work is being done on both sides of Cactus Road between 89th and 91st Avenues in preparation for paving.

When the work gets underway, driveways and side streets will be closed just long enough to pave in front of them.

91ST AVENUE PLANS

In addition to the Cactus Road improvements, Combs will construct a right turn lane for northbound Cactus Road traffic. The contractor also is placing curb and gutter on the east side of 91st Avenue south of Cactus Road.

DRIVING THROUGH THE AREA

During the construction improvement project, there will be lane restrictions. However, one lane of traffic in each direction will be maintained at all times as will access for residents, businesses and emergency vehicles. Please allow yourself extra time to get where you are going, as there may be traffic delays. In addition, do not remove any barricades or traffic signs as they are in place for your protection.

SAFETY IS PARAMOUNT

Please do not go into the construction work area until the project is completed for your safety. Thank you for your patience and cooperation.

IF YOU NEED MORE INFORMATION

If you have questions or need more information about the construction project, please call the 24-hour construction hotline at **(602) 264-6416**. We are here to assist you in any way that we can.
