April 2005

Issue 8

ON THE GROUND

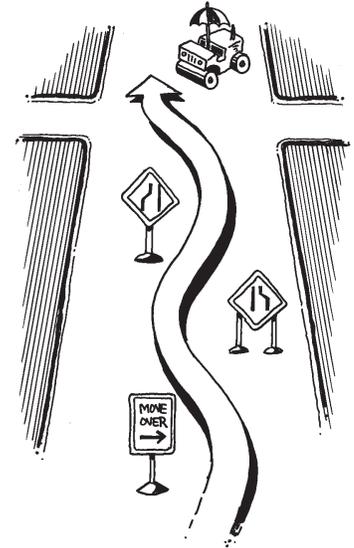

Haydon Building Corp. has installed the first layer of asphalt, or base course, on the east side of Lake Pleasant Parkway between Williams and Dynamite Roads. Traffic has been switched to the east side of the roadway so improvements can begin on the west side of the street.

LOOKING WEST

This month, the contractor continues to install box culverts, waterline and conduit on the west side of Lake Pleasant Parkway between Williams and Dynamite Roads. Once this work is complete, crews will begin grading in the same location.

THINK SAFETY FIRST

Please slow down when driving through the construction work area and allow yourself plenty of time to get where you are going as there may be delays. Access is being maintained for residents, businesses and emergency vehicles.

CALL FOR ASSISTANCE

If you need information or have questions about the construction improvement effort, please call the 24-hour construction hotline at **(602) 264-6416**. We are here to assist you in any way that we can.
