## About the Project

The Peoria Avenue Connector Widening at Grand Avenue project is an additional phase of the Old Town street improvement projects. This project enhances the look of the intersections, improves traffic circulation and extends the Old Town Peoria theme from nearby Washington Street, which was designed to enhance Old Town Peoria.

## Project Scope

The City of Peoria awarded a contract to CS Construction, Inc. to improve the intersection at 83rd, Grand and Peoria Avenues. This project includes construction of a new westbound Peoria Avenue to westbound Grand Avenue right turn lane, extending the existing left turn pocket for eastbound Grand Avenue to eastbound Peoria Avenue, closure of the existing 84th Avenue median opening on Grand Avenue, extending the existing raised median on Peoria Avenue west of Grand Avenue, Burlington Northern Sante Fe (BNSF) Railroad crossing signal improvements and pavement rehabilitation work on 83rd Avenue at the BNSF Railroad crossing. Construction will begin the end of September; the project is slated for completion at the end of December 2007.

## On the Arizona Road

Expect traffic lane restrictions; however, access for residents, businesses and emergency vehicles will be maintained at all times. A complete closure of Peoria and 83rd Avenues at the BNSF crossing will be required. The closures will be done one at a time so the two roadways are not closed simultaneously. The closure dates will be posted in advance so please watch for signs in the work area.

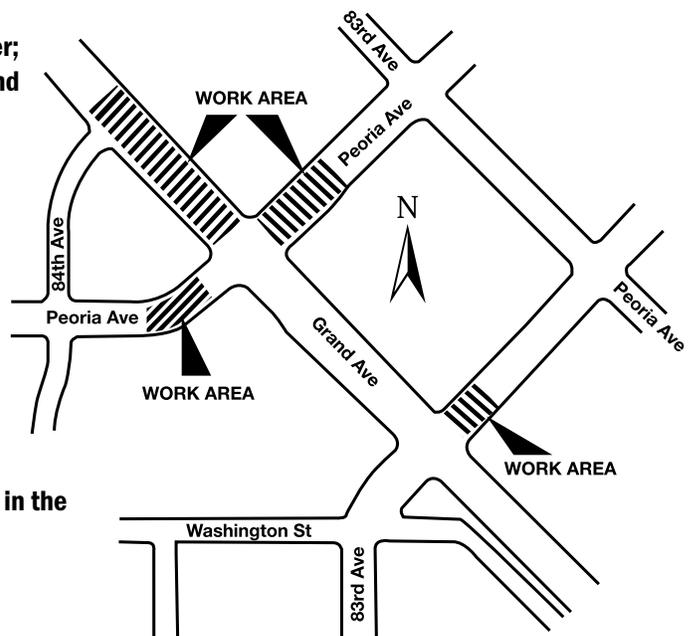

Please allow yourself extra time to get where you are going, as there may be traffic delays. Slow down and pay attention to signs and signals. In addition, do not move barricades or traffic signs as they are in place for your protection.

## Safety Matters

Please do not go into the construction work area until the project is completed for your safety and the safety of others. Thank you for your patience and cooperation.
