

The 91st Avenue And Monroe Street Intersection Improvement Project

April 2008 • Issue 2

24-Hour Construction Hotline: (602) 264-6416

About The Project

CS Construction, Inc. has begun improving the intersection of 91st Avenue and Monroe Street. Improvements include construction of a new traffic signal, sidewalk and valley gutter.

The project is slated for completion in early May 2008.

Traffic Control Change

CS Construction has placed concrete for the foundations that will hold the new signal poles. During the week of April 14, the poles will be put into place at 91st Avenue and Monroe Street; the signals will become operational the week of April 28.

Please note that this is a new four-way signal at the intersection.

On The Arizona Road

During the project, expect traffic lane restrictions. However, access always will be maintained for residents, businesses and emergency vehicles. Please allow yourself extra time to get where you are going, as there may be traffic delays. In addition, do not move barricades or traffic signs as they are in place for your protection.

Safety Is Number One

Do not go into the construction work area until the project is completed for your safety. Thank you for your assistance and cooperation.

Your Construction Resource

If you have questions or need information about the project in your community, just call the 24-hour construction hotline at (602) 264-6416.
