

A report from the City of Peoria to its citizens and friends

Habitat for Humanity to Build 17 Homes in Peoria

The dream of home ownership will become a reality this year for 17 lucky families thanks in part to a joint venture between the City of Peoria and Habitat for Humanity of the West Valley, who are partnering to build an entire neighborhood in south Peoria.

The first Habitat for Humanity neighborhood in Peoria will be located at 83rd Avenue and Varney Road and will cover about three acres. It will house more than 60 people in a combination of single family homes and duplexes, and contain its own neighborhood park.

"We are thrilled to be a part of this wonderful effort to provide affordable, quality housing for families," said Bill Patena, Peoria's Neighborhood Services Manager. "The city remains committed to enhancing the quality of life in our neighborhoods and in investing in our community - we love being part of projects like this."

The City Council Not-for Profit Funding Subcommittee awarded a

\$217,000 community development block grant this year to assist Habitat for Humanity with project infrastructure costs. Habitat has applied for another \$115,000 grant which is pending approval by the City Council. If approved, the city will have contributed approximately 25 percent of total project costs.

Each Habitat for Humanity affiliate is responsible for its own fund raising.

"The city has been not only generous in its funding, but extremely supportive throughout the entire process - from the planners to the engineers - we could not be more pleased," said Doug Parker, planner and designer for Habitat for Humanity of the West Valley.

Since 2001, Peoria has awarded \$343,000 dollars to Habitat for affordable housing programs. Habitat for Humanity International is a nonprofit organization that partners with low-income working families, sponsors and communities to build

Habitat for Humanity volunteers are used to building homes for working families. This summer in Peoria, they will build a whole neighborhood.

affordable quality homes and to provide support services that promote successful home purchase and ownership.

Potential home buyers must invest substantial amounts of "sweat equity" time in the rehabilitation or construction of their home, and are then allowed to purchase the home at cost. With the property, much of the building supplies and all the contractor work donated, new Habitat

homes can often be purchased for half of what similar homes would sell for.

Habitat for Humanity is looking for volunteers from all backgrounds for its support committees and construction labor.

For more information or to volunteer, contact Habitat for Humanity Volunteer Coordinator Bertha Orona at 623-583-2417 or visit www.habitatwestvalley.org

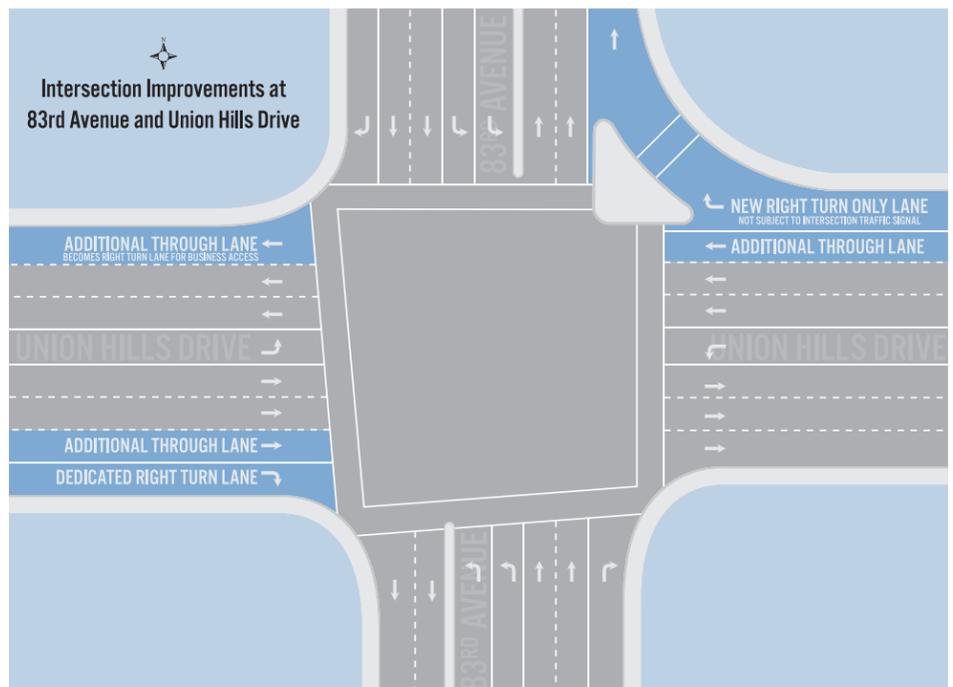

To volunteer for this project, contact
Habitat for Humanity of the West Valley:

Road Construction Update: 83rd Avenue & Union Hills

Significant design improvements and additional traffic lanes will be built beginning in April/May to help move larger volumes of traffic through the 83rd Avenue and Union Hills Drive intersection. These improvements include: one additional through-lane on the north side of Union Hills Drive from the Loop 101 to 84th Avenue; a dedicated right-turn lane from Union Hills onto a dedicated lane on northbound 83rd Avenue (not subject to the intersection traffic signal); an additional right turn lane eastbound on Union Hills Drive to southbound 83rd Avenue; and one additional through-lane on the south side of Union Hills from 84th Avenue to 83rd Avenue. Work also includes drainage system adjustments, widening of the existing bridge over the New River at Union Hills Drive and traffic signal and street lighting modifications.

"This is a significant amount of work for an area with significant need," said Dave Moody, City Engineer. "Every effort will be made to keep traffic moving with short-lived lane restrictions. However, it may be necessary for folks to allow additional time for travel in that area due to the construction."

Two lanes will be maintained in each direction on 83rd Avenue during prime travel hours (5 a.m. to 7 p.m.) and access for residents, businesses and emergency vehicles will not be impaired. To help alleviate daytime traffic disruption, some construction will take place in the evening hours. Construction is estimated to last approximately 6 months.

Intersection improvements at 83rd Avenue & Union Hills Drive will begin in April/May. Access through the busy intersection will be maintained during peak hours.

For more information contact
the Traffic Engineering Division at 623-773-7224

CITY COUNCIL HIGHLIGHTS

January

- Approved the final design and authorized the construction and proposed financing plan for the Peoria Center for the Performing Arts, a community theater that will be built by the city in downtown Peoria and leased to Theater Works, Arizona's oldest community theater group.
- Approved an intergovernmental agreement with the Arizona Department of Transportation (ADOT) for intersection improvements at 83rd Avenue & Thunderbird Road. Improvements include dual left turn lanes from northbound 83rd to westbound Thunderbird and a dedicated right turn lane from eastbound Thunderbird to southbound 83rd. Nearly \$600,000 of the \$1.4 million project cost will come from federal funding, administered by ADOT.

February

- Approved the annexation of 999 acres of land located southwest of 99th Avenue & Dynamite Boulevard. A master planned development known as Tierra Del Rio is planned for the area. Bringing the development from unincorporated Maricopa County into the city limits provides for efficient delivery of services in the area.
- Approved a contract for the design and construction of Paseo Verde Park, located near 75th Avenue & Greenway Road. Planned park amenities include softball and soccer fields, play and picnic structures, and a basketball court (for more information, visit www.peoriaaz.com/parks).

March

- Re-zoned approximately 20 acres at the southeast corner of Lake Pleasant Parkway & Happy Valley Road from residential to planned area development to allow for a retail shopping center known as Lake Pleasant Center.
- Adopted tougher design standards for non-residential development that includes new requirements for "big box" stores. Any store over 100,000 square feet now requires a conditional use permit and must be located within regional/community commercial designated areas, and must also integrate prominent architectural and landscape features to improve the overall project appearance.
- Honored Police Communications Specialist Michelle Dobrosky, who was named Arizona's 2004 Telecommunicator (public safety dispatcher) of the Year by the Association of Public Safety Communications Officials International.

April

- Amended the Peoria City Code to establish requirements for early citizen participation in rezoning cases. Applicants and developers requesting rezoning must now prepare a citizen participation plan for city approval as part of any rezoning request.
- Approved an agreement with Arizona Diamondbacks Charities for the development of a "Field of Dreams" youth baseball facility at Varney Park. Plans for the field include bleachers, dugouts, a scoreboard and field lighting.
- Adopted a Citizen's Transportation Committee recommendation to place a .3% sales tax increase dedicated to funding local transportation projects and services before the city's voters in September. This election will take place on September 13th – look for more information about this issue this summer.

Mayor's Report

Recently the City of Peoria held eight election information "Town Hall" meetings to provide details on May's bond election. On May 17, 2005, Peoria voters will be asked to decide on bond propositions that would provide funding for major projects and construction of city infrastructure over the next 10 to 15 years.

The purpose of these meetings was to ensure that the community has a say in future transportation plans and the financial resources needed to pay for them. The city has a \$1 billion infrastructure need. The passage of Proposition 400 last November took care of just over half of the needs and if Peoria voters approve the bonds in May it will cover about half of the leftover gap. But, we still have more to do.

Prior to the Town Halls, I appointed 36 Peoria residents to one of two committees. The citizen's transportation committee focused specifically on transportation issues identifying nearly \$200 million in additional unfunded street and transportation projects (and service needs) in addition to currently available funding for local road projects. The final recommendation to address this funding gap is a .3% sales tax increase dedicated to funding transportation projects and services. City Council is expected to explore the recommendation of the committee in May.

The citizens' bond committee looked at all of the other capital needs of the city. These volunteers spent many hours working with city staff to review transportation and other capital needs and help prioritize these projects. Their work was to advise the City Council regarding what should be placed before the voters.

The citizen's bond committee received general guidance from the City Council in advance that the total dollar amount proposed for any bond financing had to be supportable without increasing the city's current property tax rate (which has not been raised in seven years).

It has been a priority of the City Council to live within the financial boundaries of our property tax rate. As Peoria has grown, new development and increased property values have allowed us to increase the number of projects we are able to complete without raising the property tax rate.

That does not, however, change the need for citizen approval of all proposed bond financing, which is why four separate bond issues totaling \$286.5 million (in 2004 dollars) will go before voters on May 17, 2005. Even though it will not increase taxes, state law requires that municipalities seek the approval of the city's voters before issuing debt.

The proposed bond package addresses much of the city's capital infrastructure and facility needs for the next few years. Within this package are streets, parks, public safety, drainage, and water and wastewater projects that form the backbone of the city's service delivery system.

As the city develops it impacts everything from finances to fire protection, street maintenance to sports recreation programs, building safety to buying library books – it is the responsibility of the city to try and balance the growth. It is necessary, however, that we do everything possible to make this growth meet the best interests of our community.

The average citizen plays as important role as any in this process - by staying informed and exercising their right to vote. I hope to see you at the polls on May 17.

Mayor John C. Keegan

CITY COUNCIL District Roundup

Contact the Mayor and Council
by calling 623-773-7306.

Council Meetings are held the first and
third Tuesday of each month at 7 p.m. in
the Peoria City Council Chamber,
8401 West Monroe Street

Call the City Clerk's Office at
623-773-7340 for
agendas or more information.

Council agendas, meeting minutes,
district maps, and other information are
also available on the city web site at
www.peoriaaz.com/council

Acacia District – Councilmember Vicki Hunt

Zócalo Mall is an exciting new addition to the downtown area. Many traditional Mexican cities have a downtown area - a zócalo - that serves as a hub for government services, banking services, and retail commerce. This is the atmosphere that the folks at Zócalo Mall are trying to recreate in our downtown at 83rd Avenue and Peoria Avenue. To learn more, visit www.zocalomall.com

Ironwood District – Councilmember Bob Barrett

The Peoria Unified School District, with some financial assistance from the City of Peoria, is providing teachers with training for Quest, a program developed by Lions Clubs International that teaches students how to communicate effectively and to accept responsibility for their actions. For more information about Lion's Quest, contact Ralph Williamson of the Peoria Sunset Lion's Club at 623-773-7328.

Mesquite District – Councilmember Cathy Carlat

Much has been said about the role of transportation in the May bond election. While transportation is of vital importance to our city, there are also other items included in the proposed bond funding. One of the amenities that would be funded through the proposed bonds is a free standing branch library in north Peoria. No matter what district you live in or what your views are on the bonds, please take the time to vote on May 17th!

Palo Verde District – Vice Mayor Pat Dennis

The sixth annual Peoria Youth Government Day, which brings high school students to City Hall to spend a day with elected officials and other city leaders, took place on April 1. Peoria's Youth Advisory Board, comprised of 19 members in grades 7 – 12, coordinates all aspects of this very impressive annual event. For more information about the Youth Advisory Board, contact the City Clerk's Office at 623-773-7340.

Pine District – Councilmember Carlo Leone

The next time you come to City Hall, take a close look around the Municipal Complex grounds. A substantial amount of work has been done to make your city center a safer place to visit. In the garage adjacent to the Peoria Library, iron grillwork is in place on the street side and new lighting has been installed. Both parking garages will also be fitted with video surveillance systems. Enhanced lighting is being installed throughout the complex. Keeping citizens and city staff safe is always our goal.

Willow District – Councilmember Joan Evans

Graffiti is a problem that seems to plague just about every community across the country. But there is something that each and every one of us can do to help clean up our city. If you are out and about and see graffiti, call the City of Peoria graffiti hotline at 623-773-7094. Leave a detailed message about the exact location, and our city crews will be out to take care of the problem. Involved citizens do make a difference.

More Jobs For Peorians

As one of nation's fastest growing cities, one of Peoria's biggest challenges is attracting businesses that provide high-quality jobs so more Peoria residents can work in the city they call home.

"Local jobs allow people to live and work in Peoria without having to commute to other areas of the Valley," said Steve Prokopek, director of the Economic Development Department. "This year we're bringing even more businesses and retailers into our community to meet that objective, and to help our local economy."

The city currently has businesses with jobs for 24,000 to 25,000 people. Key employers include Antigua, Oakcraft, Plaza Del Rio, Bell Road auto dealers and the Peoria Unified School District.

Projects currently under construction will bring more employers to the mix. These include Arrowhead Business Park II in the vicinity of 91st Avenue and Bell Road; Thunderbird Office Park at 83rd Avenue and Thunderbird Road; Arrowhead Commerce Center at 83rd Avenue and Skunk Creek; Peoria Crossing Commerce Park at 91st and Northern Avenues; and Cibola Vista Resort and Spa at Lake Pleasant Parkway and Jomax Road.

Cibola Vista will be the largest resort built in the West Valley since completion of the Wigwam Resort in 1929. Once

Water Reuse Provides Additional Resources

Peoria's Vistancia residents will be the first to see purple pipes running through their golf courses, parks and school grounds, but it's not a quirky design element – these colorful pipes are bringing a valuable water resource to the city.

These distinctively colored pipes, which are completely separate from the drinking water system, designate that reclaimed water is being used. Water reclamation means capturing, treating, and reusing water from wastewater.

Vistancia residents are served by the Jomax Water Reclamation Facility, which uses state-of-the-art treatment and disinfection technologies to process wastewater. After treatment to meet stringent federal and state regulations, the water may be used for a variety of non-drinking purposes such as irrigation on golf courses, parks and other landscaped areas. Reclaimed water is never used for drinking or swimming areas.

"Water reuse will help us diversify and preserve our future water supply," said Brad Hill, Water Resources Manager. "Because less drinking water is being used for irrigation or aesthetic purposes like decorative fountains, reclaimed water will ease the demand on our groundwater and surface water resources."

Recent office and industrial developments mean more local job opportunities.

completed, the five-star resort will consist of 240 two-bedroom timeshare units, a 101-room boutique hotel and an 8,000 square-foot spa. The resort is expected to employ approximately 100 people.

Other projects slated to begin this year include the Reliance Development at 91st and Olive Avenues; offices adjacent to the Peoria Sports Complex; Mack Industrial Park at Thunderbird Road and Loop 101; Olive Avenue Industrial Park at Olive Avenue and Loop 101; and three new car dealerships at 92nd Avenue and Bell Road.

All of this activity is expected to bring a significant number of new job opportunities to the area. Even with that, Peoria's Economic Development Department is continuing efforts to bring larger major employers to the city so more Peoria residents can work close to home.

For more information, contact the Economic Development Dept. at 623-773-7735

Peoria's Vistancia makes use of reclaimed water for entrance features, park, landscaping, and golf course irrigation.

While the Jomax facility currently is Peoria's only plant with water reuse capabilities, the city is committed to diversifying use of its water resources.

When the Butler Water Reclamation Facility (79th and Butler Avenues) opens in June 2009, 10 million gallons per day will be added to the city's reclaimed water resource portfolio. Opportunities to use reclaimed water near the plant site or transmit it via "purple pipe" to irrigate parks or rights of way nearby are being explored. Reclaimed water may also be recharged back into the local groundwater aquifer, earning the city credits that allow pumping additional groundwater for drinking use.

Peoria already enjoys a diverse water resource portfolio of treated surface water from separate sources supplemented by groundwater. Using reclaimed water where drinking water isn't needed only strengthens the city's water resources for the future.

For more information contact the Utilities Dept. at 623-773-7286

Voters Will Decide Peoria's Future on May 17

Peoria voters will be asked to make some very important decisions on May 17. The issues on the ballot are:

Prop. 100 - City Charter Amendment, Powers & Duties of the City Council

Approval of Prop. 100 would eliminate the need for emergency measures to be read twice prior to Council passage, give the city more flexibility in its time line for publishing city ordinances and emergency measures due to the varying schedules of different publications used by the city, and clean up some language in the Charter. A "Yes" vote on Prop. 100 shall adopt the proposed charter amendment, a "No" vote shall leave the charter unchanged.

Prop. 101 - City Charter Amendment, Elected Official Salaries

Submitted by the Citizens Commission on Elected Official Salaries, Prop. 101 would allow the Commission to make recommendations on salaries every two years rather than the current four years. Due to the reduced period of time between recommendations, Prop. 101 also would reduce the amount of salary adjustment for the Mayor and City Council that could be adopted without a vote of the people from less than 9% to less than 5.1%. A "Yes" vote on Prop. 101 shall adopt the proposed charter amendment, a "No" vote shall leave the charter unchanged.

Prop. 102 - City Charter Amendment, City Manager & City Attorney Evaluations

Adoption of Prop. 102 would formalize the annual reviews of both the City Manager and City Attorney, requiring each position to be evaluated annually. A "Yes" vote on Prop. 102 shall adopt the proposed charter amendment, a "No" vote shall leave the charter unchanged.

Prop. 300 - Zoning Referendum, Lake Pleasant Pkwy. and Happy Valley Pkwy.

A referendum on rezoning approximately 40 acres of property on the southwest corner Lake Pleasant Parkway and Happy Valley Parkway (Happy Valley Road becomes Happy Valley Parkway west of Lake Pleasant Parkway) from Residential Mobile Home (RMH-3) to Planned Area Development (PAD)—Commercial. This change would permit a large commercial retail use under the City's C-2 (Community Commercial) zoning district – a shopping center called Lake Pleasant Pavilions is planned for this site based upon this rezoning. This referendum will decide whether that rezoning is upheld or rejected. A "Yes" vote on Prop. 300 shall affirm the City Council's decision to rezone the property, a "No" vote shall overturn the City Council's decision to rezone the property.

Prop. 301 - Zoning Referendum, Lake Pleasant Pkwy. and Happy Valley Rd.

A referendum on rezoning approximately 55 acres of property on the northeast corner of Lake Pleasant Parkway and Happy Valley Road from Suburban Ranch (SR-43) to Planned Area Development (PAD)—Commercial. This change would permit a large commercial retail use under the City's C-2 (Community Commercial) zoning district – a shopping center called Peoria Center Point is planned for this site based upon this rezoning. This referendum will decide whether that rezoning is upheld or rejected. A "Yes" vote on Prop. 301 shall affirm the City Council's decision to rezone the property, a "No" vote shall overturn the City Council's decision to rezone the property.

Prop. 302 - City Office Building

Prop. 302 allows Peoria voters to determine whether the City is authorized to construct a city office building at the southwest corner of the City Hall complex (8401 W. Monroe St.) as part of the city's 10-year Capital Improvement Plan. The Peoria City Charter requires voters to specifically authorize construction of city office buildings that exceed \$500,000 in cost. A "Yes" vote on Prop. 302 shall authorize the city to spend public funds to construct a city office building, a "No" vote will disallow expending public funds to construct a city office building.

Bond Questions

In addition to these important propositions, citizens will be asked to consider four separate bond questions which address much of the city's capital infrastructure and facility needs in the coming years. Within this package are dozens of street, parks, public safety drainage, and water and wastewater projects that form the backbone of the city's service delivery system. Some of the more high-profile projects proposed for bond funding include: over \$10 million for upgrading the city's public safety radio system; \$3.7 million to construct a Police Department northern precinct station; \$2.1 million to develop Peoria's mountain trails system; \$11.5 million to build a playing field oriented community park at 83rd and Olive Avenues; \$7.6 million to build two new fire stations; \$4.1 million to widen Deer Valley Road between 91st and 83rd avenues; \$4 million toward the Beardsley Road Connection at Loop 101; \$6.1 million for improvements to Northern Avenue; and \$20.4 million to improve Happy Valley Road from Lake Pleasant Parkway to 67th Avenue.

For more information on these election issues, visit www.peoriaaz.com/election05 or call the Communications and Public Affairs Department at 623-773-7000

"Where the Rubber Meets the Road"

ROAD CONSTRUCTION UPDATE

Cactus Rd. Widening - 89th Ave. to 91st Ave.
This project will widen this section of Cactus Road to five lanes and provide dedicated right-turn lanes from westbound Cactus to northbound Loop 101 and from northbound 91st. Ave. to eastbound Cactus. Resurfacing of the roadway, street lighting, sidewalks and under-grounding of overhead utilities are included. Construction is underway and expected to be completed in September 2005.

83rd Ave. & Thunderbird Rd. Intersection Improvements
This project will provide roadway widening to accommodate dual left turn lanes from northbound 83rd to westbound Thunderbird and a dedicated right turn lane from eastbound Thunderbird to southbound 83rd. Right of way acquisition and utility relocation is in progress, which will be followed by the construction bid process and approximately seven to nine months of construction time.

Lake Pleasant Parkway
This project will widen Lake Pleasant Parkway from Williams Road to the new West Wing Parkway (1 mile north of Jomax Road) to 4 lanes with bike lanes. Traffic signals will be constructed at Pinnacle Peak Road and Happy Valley Road intersections. Construction is expected to be completed by Spring of 2006.

For more information on these or other road construction projects in Peoria, contact the Engineering Department at 623-773-7210.
For a current list of major road closures and lane restrictions, visit: www.peoriaaz.com/roadclosures

PEORIA SUMMER CAMP

May 23 - August 5

Once school's out, it's time for summer fun and excitement at Peoria Summer Camp (PSC). This program provides an attractive alternative for working parents in need of childcare during the summer months and is open to residents and non-residents! PSC offers a secure environment with plenty of exciting activities for the kids to enjoy.

Arizona Department of Health Services (DHS) licenses all sites and Department of Economic Security (DES) funding is available for qualified participants.
