Pursuant to A.R.S. § 45-632 and the assured and Adequate Water Supply Rules, designated water providers are required to supply the following information. Instructions are listed under each section of this form.

Note: If any information pre-printed on this form is incorrect, please make the needed corrections. For any information not already pre-printed on this form, please follow the directions below. All parts must be completed.

**PART 1 - COMMITTED DEMAND**

Please provide the estimated future demand in acre-feet for undeveloped, recorded plats that are located in the area as of December 31, 2010. Report demand for residential versus non-residential lots separately.

Number of Residential Lots	Demand per Lot (af/yr)	Total Demand (af/yr)
500	0.52	260
Number of Non-Residential Parcels	Total Demand (af/yr)	
200	450	

Explain how the non-residential demand was calculated. Use a separate sheet if necessary.

**PART 2 - PROJECTED ANNUAL DEMAND**

Project the annual water demand in acre-feet for each year indicated. Calculate the increase in demand each year from the previous year. The projected demand in most cases will be greater than the total water use for the current calendar year. Current year demand should equal the total water deliveries in the service area for 2010 as reported on the Schedule F forms, plus system losses and unaccounted for water. Included all water sources used.
