f. It is the responsibility of all Offerors to examine the entire Request For Proposal package and seek clarification of any item or requirement that may not be clear and to check all responses for accuracy before submitting a bid. Any question related to the Request For Proposal shall be directed to the purchasing agent whose name appears on the front. The Offeror shall not contact or ask questions of the department for which the requirement is being procured. Questions should be submitted in writing when permitted. Any correspondence related to a Request For Proposal should refer to the appropriate Request For Proposal number page and paragraph number. However, the Offeror shall not place the Request For Proposal number on the outside of any envelope containing questions since such an envelope may be identified as a sealed proposal and so will not be opened until after the official Request For Proposal due date and time.

3 PROSPECTIVE OFFERORS CONFERENCE
A prospective offerors conference may be held. If scheduled, the date and time of this conference will be indicated within this document. Any doubt as to the requirements of this Request For Proposal or any apparent omission or discrepancy should be presented to the City at this conference. The City will then determine if any action is necessary and may issue a written amendment to the Request For Proposal. Oral statements or instructions will not constitute an amendment to this Request for Proposal.

4 LATE PROPOSALS
Late Proposals will not be considered except as provided by the City of Peoria Procurement Code. A professional service provider submitting a late proposal shall be so notified.

11 AWARD OF CONTRACT
a. Notwithstanding any other provision of this Request For Proposal, the City expressly reserves the right to:
(1) Waive any immaterial defect or informality or
(2) Reject any or all proposals or portions thereof or
(3) Rescind a Request For Proposal.

b. A response to a Request For Proposal is an offer to contract with the City based upon the terms, conditions and specifications contained in this City's Request For Proposal and the written amendments thereto. If any Proposals do not become contracts unless and until they are accepted by the City Council. A contract is formed when written notice of award(s) is provided to the successful Offeror(s). The contract has its inception in the award document, eliminating a formal signing of a separate contract. For that reason, all of the terms and conditions of the procurement contract are contained in the Request For Proposal unless modified by a Solicitation Amendment (COP Form 207) or a Contract Amendment (COP Form 217).

7 CONTRACT APPLICABILITY The Offeror shall substantially conform to the terms, conditions, specifications and other requirements found within the text of this specific Solicitation. All previous agreements, contracts, or other documents, which have been executed between the Offeror and the City are not applicable to this Solicitation or any resultant contract.

The City, at its

Contractor agrees and acknowledges that it would not be unreasonable for the City to decline to approve a delegation or assignment that results in a material change to the services provided under this Contract or an increased cost to the City.

16 **OVERCHARGES BY ANTITRUST VIOLATIONS** The City maintains that, in practice, overcharges resulting from antitrust violations are borne by the purchaser. Therefore, to the extent permitted by law, the Consultant hereby assigns to the City any and all claims for such overcharges as to the goods and services used to fulfill the Contract.

Force majeure shall not include the following occurrences:

a. Last minute failure of office equipment is not force majeure.

b. Late performance by a subcontractor unless the delay arises out of a force majeure occurrence in accordance with this Force Majeure term and Condition.

Any delay or failure in performance by either party hereto shall not constitute default hereunder or give rise to any claim for damages or loss of anticipated profits if, and to the extent that such delay or failure is caused by force majeure. If either party is delayed at any time in the progress of the work by force majeure, then the delayed party shall notify the other party...
in writing of such delay within forty-eight (48) hours commencement thereof and shall specify the causes of such delay in such notice. Such notice shall be hand delivered or mailed Certified-Return Receipt and shall make a specific reference to this article, thereby invoking its provisions. The delayed party shall cause such delay to cease as soon as practicable and shall notify the other party in writing. The time of completion shall be extended by contract modification for a period of time equal to the time that the results or effects of such delay prevent the delayed party from performing in accordance with this contract.

In the event that a demand is made and no written assurance is given within five (5) days, the demanding party may treat this failure as an anticipatory repudiation of the Contract.

19 **RIGHT TO AUDIT RECORDS** The City may, at reasonable times and places, audit the books and records of any Contractor as related to any contract held with the City. This right to audit also empowers the City to inspect the papers of any Contractor or Subcontractor employee who works on this contract to ensure that the Contractor or Subcontractor is complying with the Contractor Immigration Warranty made pursuant to Paragraph 3 above.

I Introduction

The City of Peoria is seeking Requests for Proposals for underwriting services associated with the development of one or more community facilities districts and the structuring of district financings. The selected firm will be expected to add significant value in discussions regarding the formation, financial structure, risk, feasibility analysis, timing, structuring, etc., of the district(s). The city will be responsible for assembling other members of the financing team which may include developers, developer’s financial representatives, bond counsel, financial advisor, and tax consultant, etc., as required. The city also requests the ability to approve the underwriter’s counsel.

The selected underwriter will participate with the city’s internal financing team consisting of the Chief Financial Officer, City Attorney or his representative, and other city staff as required. All members of the financing team will structure financings that are in the best interest of the city.

II Scope of Services

The underwriter will assist the city’s financing team in the formation of the community facilities district(s) and related development agreement(s) and other required legal documents, and assist in the structuring, marketing and sale of district bonds. The bonds for the district may be issued as general obligation and/or assessment bonds and will most likely be issued as an unrated transaction.

Because of the complexity of the district(s) and the related bond transaction(s), significant and specific experience and expertise related to community facilities district transactions within the state of Arizona will be required of the firm selected. It is imperative that the specific staff person assigned to this contract likewise have significant experience and expertise related to community facility districts within the state of Arizona. An office presence in the Phoenix metro area is strongly preferred.

Services expected of the underwriter and assigned staff member will include the following:

A. Participate in person in all financing team meetings with the developer, their representatives, and city staff to structure the community facilities district(s), including the preparation of development agreement(s) and other required legal documents.

B. Assist in the structuring of the bond issue(s), including capitalizing interest, redemption provisions, serial versus term bonds and other additional bond tests. Assist in the review and preparation of legal documents to result in a completed financing.

C. Marketing and underwriting and/or direct placement of the bonds. The city will expect the underwriter to recommend a marketing plan that results in the most favorable bond terms to the City, and prepare a pre-pricing analysis document for timely discussion prior to the bond sale. The marketing plan should address current outstanding market conditions such as an assessment of the current Arizona market, investors’ perception of the financing and any other market concerns prior to the time of the sale.

D. Assist in evaluating risk, financial options, and alternative revenue sources to support financing and address risk, and merits of general obligation bond and/or assessment bond issues.
E. Assist in preparation of applicable offering documents, continuing disclosure agreements and other necessary bond disclosure documents

F. Provide support in developing the structuring and timing of the debt issue(s) and other financial options including advice on current trends for similar types of projects

H. Assist in the ongoing administration of the District’s affairs as required

Dear Ms Miller,

On behalf of Stifel Nicolaus & Company Incorporated (Stifel or the Firm), we are pleased and appreciative to respond to the City of Peoria Arizona (the City) Request for Proposal #P14-0031 (RFP) to provide underwriting services associated with the development of one or more Community Facilities Districts (CFDs or Districts) and the related structuring and underwriting of district financings. As outlined herein over the past ten years, our Arizona Public Finance banking team has become a leader in structuring, managing, underwriting and privately placing CFD land secured bond transactions as a result of having worked on a significant majority of the CFDs formed and the subsequent issuance of bonds for those Districts. The experienced gained on these transactions (outlined herein) will enable our Firm to provide each CFD with an unmatched level of technical advice, underwriting and placement capability.

As further detailed in our proposal, please consider the following attributes:

- **Arizona Leader in CFD Land-Secured Finance** Over the past ten years Stifel has served as underwriter, placement agent or financial advisor to (14) Arizona Cities/Towns out of a total of (17) who have formed CFDs or 77% of the total. This list includes Buckeye, Coolidge, Florence, Fountain Hills, Goodyear, Litchfield Park, Marana, Prescott, Prescott Valley, Sahuarita, Scottsdale, Show Low, Surprise and Wickenburg (in process). This list does not include cities such as Avondale and Oro Valley who retained our Firm to assist with evaluating CFD proposals but which for various reasons did not move towards formation. A few of our Arizona CFD highlights include:
  - Structured managed and underwrote the largest non-rated Arizona CFD bond issue in State history ($49,000,000 Special Assessment Bonds Series 2005 Buckeye Arizona)
  - Assisted in the development of the first special assessment—installment purchase structure
  - Underwriter or Placement Agent to the Festival Ranch CFD (Buckeye AZ)
  - Underwriter or Placement Agent to the Merrill Ranch CFD No 1 & No 2 (Florence AZ) including annual assistance with managing a consistent $3.25 tax rate for each District located adjacent to each other
  - Managed first investment grade credit ratings for Festival Ranch & Merrill Ranch CFDs (early stages of development)
  - Managed (Financial Advisor) a $26.4 million Verrado CFD GO Bonds Series 2013 (Buckeye AZ)

The following chart reflects the Firm’s leadership position in the Arizona CFD market:

| Arizona CFD Bond Transactions - 10 year History (based on number of transactions) |
|---------------------------------|--------|----------------|
|                                 | Stifel/S&Y | RBC         |

- **National Leader in Land-Secured Finance**  Stifel is the leading underwriter of land-secured bonds nationally. Since 2010 the Firm underwrote 145 separate land-secured bond issues totaling more than $1.9 billion. Although a lot of this experience is concentrated in California, the State that generates the most land-secured bonds, the Firm has important, diverse experience throughout the country including the first ever community facilities district bond in the State of Hawaii and a $3.9 million special assessment bond for the City of Boise. Harris Ranch CFD and four series of refunding special assessment bond issues for Las Vegas Henderson and Clark County Nevada as well as projects in Arizona, Texas, Illinois, Missouri, Michigan, Ohio, Virginia, and Kansas. Mr Reader was the co-lead banker to the City of Boise, Idaho in connection with the first CFD completed in Idaho. Stifel’s bankers and underwriters know this market better than our competition and therefore we are better able to create and implement an aggressive pricing of the District’s Bonds.

- **Commitment to Arizona Municipal Finance**  Our Arizona Public Finance banking staff is one of the largest in the State of Arizona where we consistently manage 40 – 60 transactions per year more than any other Firm by number of transactions (Financial Advisor, Underwriter or Placement Agent). We have thirteen employees dedicated to serving all sectors of the municipal market including cities, towns, counties, special districts, universities, state agencies and public schools (K-12). By way of example, Stifel has served as Underwriter to the Peoria Unified School District for many years.

Why Stifel? First, our bankers, underwriters, and sales professionals work on more land-secured bond issues in Arizona and the country than any other investment bank and are therefore able to quickly identify credit challenges and structuring opportunities. Secondly, investors in land-secured bonds know and respect our Firm from the bankers who due diligence the credit, to the underwriters and sales professionals who establish the primary market pricing levels to the research department that updates the credit routinely through the maturation of the District and finally to the traders that make a secondary market for the bonds. All of these things together will combine to create a smooth and efficient market entry for a transaction.

Through the combination of these attributes, Stifel is uniquely situated to work with the City and its CFDs to develop and implement a financing program that best meets your financing objectives. We have good relationships with Mr. Mattingly, Mr. Hocking (Financial Advisor) and Mr. Cafiso (Bond Counsel) and are confident we would work well together in the development of a CFD financing.

Thank you for the consideration of Stifel as underwriter to the City’s future CFD bond transactions. We have long desired the opportunity to work with the City of Peoria and remain excited about the opportunity to work on these very important financings. If selected, we pledge to provide a high level of responsiveness, customer service and collaboration which will result in successful underwritings.

Sincerely yours,
Stifel Nicolaus & Company Incorporated

A Overall Firm Experience

Included below is a summary of our Arizona CFD experience over the past ten years. All transactions were negotiated or private placement sales as early stage CFD bond transactions do not lend themselves to competitive bid sales - due to the complexity of the transactions (in general). While we understand the City's RFP is for CFD underwriting services our role as Financial Advisor (as well as underwriter and placement agent) has enabled us to develop a significant expertise in this specialized sector of municipal bond finance. Our response to each question in the RFP is Arizona focused. As summarized briefly herein, Stiefel has a significant national practice which we can draw from and provide additional information if that is important to the City in evaluating our qualifications.

Plan and Method of Approach to Accomplish the Scope of Work

When retained to assist with structuring and underwriting a CFD financing, our approach starts with communicating with staff financial advisor and bond counsel to develop a thorough understanding of the project (including a site visit) the developer(s)/homebuilder(s) and the public policy objectives of the City including a thorough review of the City's CFD policy. Unlike some firms, we do not prefer to communicate with the developer in advance of a CFD transaction without the City present or without their permission.

Upon developing a sound understanding of the transaction and objectives, we would work closely with the City and their team in the development of various financing alternatives and work together to develop an approach which works for the CFD and the developer taking into account market tested structures and financings driven by public policy requirements and precedent setting financings structured to minimize the CFD’s risk. As underwriter our job is to work closely with the CFD and TL Hocking & Associates in the development of sophisticated financial models based on conservative assumptions. These analyses will be helpful in evaluating the conceptual size of the financing plan including type of bond structure(s) and timing of sales which will be useful to the City in negotiations and with controlling developer expectations. Once the CFDs internal financing team has a good understanding of how a CFD will be conceptually structured, we would meet with the developer to educate them further on what should be incorporated into their Application for Formation or related request for a CFD bond financing. Our experience over the years suggests that many developer/homebuilders lack understanding of how CFD and secured bond transactions work in Arizona and are sometimes influenced by outside consultants who have a different perspective on what is acceptable from a policy and security perspective. Meeting with them in advance of the submission of the Application or financing request can facilitate communication between all parties involved so again, expectations can be controlled.

While our preferred approach is outlined above, we were recently asked by an Arizona Town client to assist in educating the developer on how CFDs work in Arizona (using previous experience and case studies) and provide him with unbiased information relative to the conceptual structuring of a potential CFD bond transaction. As a result of the education process with the developer, the preliminary Application for Formation submitted to the Town was all-in-all well received.

Our role to the CFD (if formed) relative to the initial sale of bonds is placement agent.

Once an agreement is reached between the CFD and the developer on a financing plan, we have often participated in productive study sessions with the CFD Board to educate them on the process of issuing bonds and how the CFD has minimized the extent possible its risk in a possible transaction. If requested, we are glad to assist with this and can
share previous presentation materials which have been well received if the CFD and TL Hocking and Associates feels we can add value

As it relates to Stifel’s general marketing strategy the Firm will focus on educating potential investors on the CFD and its finances security for the Bonds and the strength of the proposed bond structure. Our underwriting and marketing accomplishments are demonstrated in the dramatically lower interest rates that we have been able to achieve relative to our competitors for similar credits and is largely attributable to our ability to communicate the nuances of land-secured credits with a broad spectrum of potential buyers. To that end we have undertaken comprehensive marketing campaigns that have tapped traditional retail professional retail and institutional market participants. These distinct buyer segments require a different level of focus and attention to communicate credit features engage in pricing discussion and ultimately generate orders. Our vast and unparalleled land-secured experience makes us uniquely positioned to market the Bonds and assist the District in generating the lowest cost of funds.

Rating Agency CFD Experience

Managing the rating agency process for CFD bond transactions is very important in Arizona due to the capital cost differential of having an investment grade credit rating compared to selling bonds on a non-rated basis driven primarily by an investor letter requirement which impacts liquidity and the type of qualified investors we are required to target. Our experience indicates possible investment grade credit ratings can be achieved once development progress approaches 20% 25% of absorption depending upon other factors such as financial position and property tax rates assessment burden direct and overall net debt levels debt service reserve levels debt service reserve fund (if incorporated) and other factors. We have successfully assisted the following Districts in obtaining investment grade credit ratings in the relatively early stages of development: Merrill Ranch CFD No 1 & No 2 (BBB S&P) Festival Ranch CFD (BBB S&P) Sundance CFD (BBB S&P A3 Moody’s) We are currently in the process of underwriting bonds for both Festival Ranch and Merrill Ranch CFD No 2 and are managing the rating agency presentation meetings in the coming weeks.

If a standby contribution agreement/depository agreement is structured into the transactions (to be determined) it also requires additional strategy on how to approach the rating agencies. We recently went through this experience with the $26,000,000 Verrado CFD (Buckeye) transaction and would be glad to share the experience with the team if retained. Once we understand all details relative to how a CFD bond transaction would be structured we would collaborate with the District and TL Hocking and Associates to develop a rating agency strategy (if applicable).

Years of Experience, Local Presence

Stifel is a publicly held company traded on the New York Stock Exchange under the ticker symbol SF. Today with more than 5,400 full time employees and over $140 billion in client assets under management Stifel Nicolaus is one of the largest full service broker dealers on Wall Street providing public finance and corporate finance investment banking and advisory services brokerage trading and sales investment advising and related financial services to individuals institutions governments and corporations.

In the public finance arena Stifel acquired privately held Stone & Youngberg LLC (an 80 year old fixed income specialist headquartered in California with a major presence in Arizona) on October 1, 2011. The acquisition underscores Stifel’s dedication to Public Finance generally and to core issuer clients in Arizona California Nevada and New Mexico where the Firm had no presence. The merger represents a significant enhancement to our municipal banking underwriting and trading activities as well as our distribution and overall resources.

As of June 30, 2013 Stifel had total capital of over $1.1 billion and excess net capital of $411 million. Stifel maintains net capital and excess net capital positions that rank as one of the highest among top investment banks. Our low level of capital leverage not only ensures financial stability but also gives us significant capacity to commit capital to underwrite unsold balances. Our underwriters are free to allocate our net capital and excess net capital as they see fit there are no predefined divisions of capital allocations. Our confidence in buying unsold bonds is strengthened by our fixed income distribution capabilities. With our extensive reach and interaction with such buyers we are better able to access points of the market with a demonstrated history of buying land-secured bonds.

Staff Assignments and Qualifications

The Stifel Arizona banking team assigned to the City of Peoria CFD account includes veteran public finance bankers Mark Reader Managing Director Mike LaVallee Managing Director and Erika Miller Assistant Vice President all of whom have significant CFD experience and would add value to each transaction. Mr. Reader will serve as the lead banker responsible.
for attending meetings and working directly with staff and Mr. Hocking, working closely with Ms. Miller and Mr. LaVallee as required. The following represents brief resumes:

**Mark Reader, Managing Director (Role: Lead Banker)**

Mark Reader has over 25 years of Arizona public finance experience. Prior to the Stifel acquisition of Stone & Youngberg in 2011, Mr. Reader was an S&Y equity partner who helped build the Firm's Arizona public finance practice into a market leader. Approximately 12 years ago, he started to devote a significant amount of his time structuring, managing and underwriting CFD bond transactions due to the growth in Arizona and interest by the cities/towns he represented on traditional bond transactions. Mr. Reader now devotes a significant portion of his public finance practice to the CFD land secured sector and currently works on most CFD transactions being completed in Arizona either as underwriter placement agent or financial advisor. As summarized on page 1 and 2 herein, he has been the lead banker on 53 CFD transactions totaling approximately $200 million over the past 10 years.

His primary Arizona City/Town CFD clients include the Town of Buckeye and the Town of Florence, both of which are active issuers of CFD general obligation and special assessment bonds due to the successful master planned communities of Festival Ranch (Pulte) Verrado (DMB) Sundance (Meritage Homes Pulte) Merritt Ranch (Pulte). Additional clients include Marana (Gladden Farms CFD), Show Low (Show Low Bluff CFD), Goodyear (Centerra CFD), Surprise (Marley Park CFD) and the Town of Sahuarita (Robson Ranch CFD) who is also in the process of considering the formation of a new CFD (Sancho Sahuarita) and which both Mr. Reader and Ms. Miller are actively engaged in. His role and value added services to each of his CFD clients include working closely with all team members on the technical structuring of a transaction that works for the CFD investors and for the landowner/applicant. He is especially adept at working collaboratively with all parties in the early stages of developing a master financing plan that incorporates general obligation bonds, special assessment bonds, installment purchase special assessments or a combination thereof.

Mr. Reader graduated from the University of Arizona with a bachelor's degree in financing and accounting. He holds his Series 7 and Series 63 licenses. Mr. Reader is a University of Arizona Eller Associate where he participates in mentoring/interviewing undergraduate business students and is on the Board of Directors and a Manager/Coach for Cactus Little League. He is also a member of GFOA, Goverment Finance Officers Association of Arizona and the Arizona City Managers Association.

**Michael LaVallee, Managing Director (Role: Co-Lead Banker)**

Michael LaVallee has approximately 17 years of Arizona public finance experience. Prior to the Stifel acquisition of Stone & Youngberg in 2011, Mr. LaVallee was an S&Y partner who helped build the Firm's public finance practice into a market leader in Arizona. Mr. LaVallee was the co-lead banker with Mr. Reader on the successful underwriting of a $49,000,000 (Town of Buckeye, AZ) Special Assessment Bond issue in 2005, the largest and one of the more complicated non-rated special assessment bond in State history. This CFD consisted of 2,100 acres, 18 separate landowners/developments and 6 homebuilders. Proceeds were used to construct a 15 mgd expansion of the WWTP and the construction of collection lines and to fund a rate stabilization fund. Some examples of other CFD transactions he has managed or co-managed include:

- $26,000,000 General Obligation Bonds Series 2013 Verrado CFD (Buckeye) Role: Financial Advisor
- $7,600,000 General Obligation Bonds Series 2009 Festival Ranch CFD (Buckeye) Role: Underwriter

Mr. LaVallee is currently working closely with the Town of Wickenburg staff in connection with the recent submission of an Application for Formation for a potential CFD.

Mr. LaVallee is an active member and frequent speaker of the Arizona Association of School Business Officials. He is also a member of Government Finance Officers Association of Arizona, the Arizona City Managers Association, the Arizona Fire District Association, and the Arizona Superintendents Association. She is also an active member in the Junior League of Phoenix where she currently serves as the Finance Vice President.

C Cost Considerations

Providing a comprehensive schedule of fees based on a private placement or negotiated sale (competitive bids are not an option for early stage CFD bond transactions) is difficult without knowing all of the economics (final deal structure) of a transaction including development progress value-to-lien and appropriate MAI appraisal methodology (special assessment bonds) experience sophistication and financial capability of the developer(s) and homebuilder(s) competition financial condition of the developer and the applicant (often different) amortization structure full cash value/assessed value necessity to incorporate a standby contribution agreement/depository agreement and type of corporate backing or letter of credit requirement temperament and cooperation of developer and their financial and legal consultants. Independent absorption analysis/report indemnification language tax rate and amount of assessment to name a few. That being said we have outlined herein a summary of estimated fees assuming a sound financial structure.

(a) The Take-down component represents the commissions paid to fairly compensate the sales and underwriting department of the Firm for their work in underwriting and selling the bonds to investors. Once the bonds are structured and offered for sale, Stifel would work closely with the District’s Financial Advisor, TL Hocking & Associates, and our Underwriter (Mike Imhoff) to establish the appropriate take-downs based on the final maturity structure of the issue. The above assumes a 20 year level debt service structure averaging approximately $8.50 per $1,000. Setting take-downs at the appropriate levels is important to sell bonds at the lowest possible cost and are therefore subject to negotiation based on the final transaction and market conditions at the time of sale.

(b) The Management Fee component represents revenue paid to the Firm’s public finance department to complete the Scope of Services outlined in the RFP. This component is also subject to negotiations based on the complexity of each transaction and cooperation and demands of the developer and the amount of time involved in structuring and managing the underwriting. Includes time and effort associated with any rating agency presentations, discussions and negotiations. There would be no extra fees for any training or educational services.

(c) Fee amounts for clearance related expenses will depend on size of fixed rate transaction please see the current fees at the time of submitting this proposal (CUSIP $158 for initial CUSIP with $20 for each additional please Bookrunning System $0.031/bond for sole manager add $0.031/bond if there are co-managers). Wire Fees $30 per wire for each participating syndicate member (including selling group members). Wire Electronic Order Entry $0 if sole manager $250 for $50 million par (maximum $500 per deal). Order Monitor $0.015/bond and DTC $500 flat fee Blue Sky non GO Bonds $500 flat fee.

(d) Estimated underwriter’s counsel fee of $30,000 for a $15,000,000 underwriting. Subject to negotiation based on the type and complexity of the transaction. If selected, we will as outlined in the RFP discuss which firm would be retained.

As it relates to smaller transactions around $1,000,000 our philosophy is to charge reasonable fees. Our fees generally range from 2% to 3% of the par amount and less if Stifel is retained to serve as Placement Agent (subject to negotiation). By way of example last week we privately placed the $5.8 million Quail Creek CFD Refunding Bonds with a fee of 1.2%.

Our Arizona Public Finance practice does not charge on a hourly basis. However, if the City was interested in retaining our Firm to complete a project/analysis/study outside the Scope of Services outlined in the RFP, our billing rates would be $250.00 per hour for a Managing Director and $150.00 for an Assistant Vice President.

All fees are contingent upon a successful closing of a transaction. Our Firm does not want to lose the opportunity to serve as CFD Underwriter over fees. Therefore if necessary we are open to further negotiation on final fees.
