Parking Restrictions in Peoria
The City of Peoria allows property owners to request parking restrictions adjacent to their properties to address excessive on-street parking and congestion.

How do I request a Parking Restriction on my street?
Anyone can request a new parking restriction by contacting the City of Peoria Traffic Engineering Division at 623-773-7394:

- City staff will create and send the requestor a petition including a description of the type and times of the restriction, as well as a map showing the area affected.
- The requestor will circulate the petition to the properties within the petition boundary.
- A minimum of 80% of the property owners within the petition boundary must sign the petition and indicate “YES” for the request to be completed.
- The original petition form must be returned in person or mailed to:
  City of Peoria – Development and Engineering
  Re: Parking Restriction Request
  9875 N. 85th Avenue
  Peoria, AZ 85345
- The City Traffic Engineer will review and approve or deny the request. If approved, the signs will be installed at no cost to the requestor or property owners.

What types of Restrictions are allowed?
Residents may request either “NO PARKING” or “NO STOPPING, STANDING, OR PARKING” restrictions. These restrictions may be in effect “ANYTIME”, “7:00 AM TO 4:00 PM SCHOOL DAYS” or “10:00 PM TO 6:00 AM”. Typically, other variations to these times are not accepted.

Typical Parking Restriction Signs

Are there negative impacts?
There are some drawbacks that you want to consider before requesting a parking restriction, including:

- Parking restrictions apply to ALL vehicles, including those owned by residents and their guests.
- The exact number and locations of the parking restrictions signs will be determined by Development and Engineering staff to maximize their effectiveness.
- Property owners must trim (or possibly remove) overgrown vegetation in order to provide clear visibility to the signs.
- Parking restrictions cannot be considered for removal for at least two years after installation.
Who can sign the petition?

**Residential properties** - property owners only, not renters

**Commercial properties** – a property manager or other authorized representative

**HOA Properties** – No signature is required, but the HOA must gain approval through board action documented in the HOA’s meeting minutes before submitting the request to the City.

Can a Parking Restriction be Removed?

Yes. The process to remove a parking restriction is similar to the process to install one. **80% of the property owners adjacent to the parking restriction must sign a City-prepared petition to remove it.** As with creation, removal of a parking restriction must apply to an entire block or street segment from intersection to intersection.

For more information, please contact the City of Peoria Traffic Engineering Division at 623-773-7394.
