INTRODUCING GREEN BIKE LANES

The City of Peoria requested and the US Department of Transportation Federal Highway Administration approved, the use of green-colored pavement for marked bicycle lane extensions on a citywide basis on city-maintained roadways. The City recently completed the first green bike lane pilot project which is located at the southwest corner of 83rd Avenue and Thunderbird Road.

The goal of the green bike lanes is to emphasize the crucial areas of potential conflict between motorists and cyclists where a right-turn lane creates a merge condition. The City is utilizing a thermoplastic installation material that is highly reflective and is made to withstand the constant tire traffic going over it.

Look for more installations this summer across the street at the northeast corner of 83rd Avenue and Thunderbird Road, at the intersection of 83rd Avenue and Olive Avenue, and at Alta Loma Elementary School. The green bike lanes will also be incorporated into our Happy Valley Parkway widening project and future CIP projects.
