

# 67th Avenue Corridor Improvement Project

The City of Peoria's 67<sup>th</sup> Avenue Corridor Improvement Project, Pinnacle Peak Road to Happy Valley Road, is a multi-faceted, regional infrastructure project which expands the roadway, enhances drainage protection, and installs a new waterline.

The project will widen 67<sup>th</sup> Avenue to three travel lanes in each direction and includes bike lanes, drainage components, curb, gutter, sidewalk, streetlights, landscaping, associated utility relocations, and raised median islands along a portion of the roadway between Christ's Church of the Valley and Happy Valley Road for access management and to enhance safety. Transitional improvements will also take place at the north, south and west legs of the Happy Valley Road intersection to improve travel times.

Project design is expected to begin in 2021 with construction to follow.

In lieu of a public meeting due to the current COVID-19 restrictions, information is provided at the website below. We invite you to visit the site, view our informational video, and provide your questions or comments to the project team. Comments are appreciated by October 7.
