Streetlight Infill Program

From February 1st to April 1st each year, the City of Peoria will begin accepting applications for the annual Street light Infill Program. This program is intended to respond to citizen requests for additional street lighting in residential areas.

What is the Streetlight Infill Program?

Each year, the City of Peoria allocates funds for neighborhood improvement projects. Through the Streetlight Infill Program, residents may request to have additional street lighting installed in their neighborhood. This program only applies to established neighborhoods (infill), and not those communities which are still under construction or those designated as dark skies.

Who can apply?

Traditional Neighborhoods Formal Associations, such as HOA Communities Individual Residents

What is the process?

- 1) Download and Complete the Streetlight Infill Instructions and Application Packet, on the Streets Division Home Page
- 2) Email the completed application and forms to streetrepair@peoriaaz.gov by the deadline, April 1st.
- 3) The city will then conduct a study to determine if additional street lighting is necessary. Factors that are taken into consideration are:
 - Safety & Efficiency
 - Comfort for Vehicular and Pedestrian Traffic
 - Access for Installation
 - Power Source
 - Affected Neighbors
- 4) Successful applicant(s) will be notified by mail.
- 5) City Staff will coordinate the installation of the new street lighting.
