### PROJECT UPDATE

Utility relocation work started in June 2011 and is ongoing in several locations. The roadway widening work is expected to begin in March, starting with the northeast corner. The project is currently scheduled for completion in fall 2012. The schedule is dependent upon final acquisition of right of way necessary to construct the project, completion of utility relocations, and any unanticipated factors, such as weather delays.

Americans with Disabilities Act (ADA): Those needing special accommodations may contact Daina Mann at (602) 308-1322. Requests should be made as early as possible to allow time to arrange the accommodations.
