**Re: ANNUAL WATER WITHDRAWAL AND USE REPORT FOR 2013 FOR SERVICE  
AREA RIGHT NO. 56-002029.0000**

---

Dear Ms. Muse:

The City of Peoria has prepared the Annual Water Withdrawal and Use Report for 2013 for the City's Service Area Right 56-002029.0000. One paper copy and one electronic copy (on CD) are attached.

The City produced a total of 28,944.07 acre-feet of potable water in 2013, and delivered a total of 27,338.08 acre-feet. The City's percentage of Lost and Unaccounted for Water is thus 5.55%. The City's information on water supply was derived from the Central Arizona Project (CAP), Salt River Project (SRP), and flow meter readings from City wells. All wells recovered CAP water stored in the same year. The City's water supply is now completely replenishable.

In reporting water production and usage, the City has followed the concept of reporting all water produced and received by the City balanced by all water used by the City, including water for recharge purposes. In previous years, the amounts of water sent for recharge were separately reported in the City's water storage report. Schedule A reports all the water recovered from wells which (as discussed above) was water annually stored and recovered. On Schedule E Part A, water received from SRP is reported under Part 1; all of this water was delivered to customers in the on-Project area of Peoria. The water pumped from two direct connect SRP wells, 197.99 acre-feet, is included. For 2013 SRP reported "cutback" water as delivered to the City, and this number is included in the totals on Schedule E. These numbers are provided by SRP, and care has been taken to account for these numbers in a manner directed by SRP. On Schedule E Part A, Part II, CAP water directly delivered to the Pyramid Peak Water Treatment Facility and then delivered to customers is reported, as well as water directly delivered to golf courses and turf at Vistancia and Quintero. Untreated CAP water the City received for recharge, 7,238.00 acre-feet, is included with the amount that was treated and delivered to customers. On Schedule E Part A, Part III, CAP water exchanged for SRP water during annual dry-up is recorded. The total of these three water sources (SRP, CAP, and recovered) is 30,535.85 acre-feet, which is the best representation of water produced or diverted for the City's service area, exclusive of reclaimed water.

Water levels reported in Schedule A were measured in December 2013 by the City of Peoria field staff. Wells that were sounded were turned off at least 24 hours in advance of measurement, or had not been pumping for some period of time. Many wells could not be measured due to the nature of the electric sounder and the access tubes on older wells. The City is now measuring static water levels on a quarterly basis and more wells than in previous years are being sounded.

- Several wells in Schedule A are direct connect wells owned by SRP, and are so noted. Only one of these wells, 55-219594, had significant production. One additional well, 55-565555, had a small amount of purge water that was reported in Schedule A.
- Well 55-583890 ("Desert Harbor b") represents a unique situation. This well is shared between the City and the Desert Harbor Homeowners Association (HOA). In May 1986, ADWR issued a Type I IGFR to Sun Harbor Community Association, No. 58-112103.0001. The amount of groundwater which could be legally withdrawn under this IGFR was set at 128.8 acre-feet per year, based on a water duty of three acre-feet per acre for 42.93 acres. The water was to be used for filling a lake and for landscaping. While the total acreage originally irrigated was defined as 161.4 acres, only 42.93 acres were deemed to be non-developable and eligible for the Type I IGFR. This right is still retained.

The 1994 development agreement between the City and the developer of Desert Harbor stipulated that the City would own 92% of the well and the Sun Harbor Community Association would own 8% of the well in order to continue to pump under their Type I IGFR. There appears to be no mathematical connection between the 128.8 acre-feet of legally available groundwater and the 8% of well ownership.

Groundwater was pumped from well 55-617953 under the authority of this IGFR. Well 55-617953 was abandoned in 2001, and a replacement well, 55-583890, was constructed. This replacement well is commonly known as Desert Harbor b. Because it is a replacement well, Desert Harbor HOA continues its 8% ownership stake in the well.

Under the development agreement with the City, Desert Harbor HOA is entitled to the first 128.8 acre-feet pumped from this well under their own right. The City records power usage and flow meter readings. In 2013, the first 128.8 acre-feet pumped from 55-583890 accrue to Desert Harbor HOA under their IGFR, and must be reported separately by them. The City is reporting pumpage of 119.78 acre-feet for this well under its own Recovery Permit and Service Area Rights. This explains any discrepancy between Schedule A and Worksheet W-1 for this well.

Note that the water pumped from this well is non-potable due to high arsenic levels, and is not put into the City-wide delivery system for potable water. The water is used to fill the Desert Harbor HOA lake, a non-potable use. When calculating the amount of potable water used, the pumpage from this well was excluded.

- Well 55-565552 also produces non-potable water. Water recovered from this well is delivered to the Peoria Sports Complex for non-potable purposes such as landscaping. This water is not counted as potable in Schedule F-1 Part 2. Both this well and the Desert Harbor b well are denoted on Schedule A and Worksheet W-1 as non-potable.

- Only one well, 55-203269 (Vistancia #6), had a meter replaced. This was noted in Worksheet W-1. Three wells had meters that were zeroed out but not changed. These wells, 55-523841 (Bailey), 55-617058 (Sunnyboy), and 55-622788 (Butler) were also noted in Worksheet W-1.
- Well 55-622786 ("Stone") is mis-identified on several pre-printed forms as 55-532530. The following explanation was entered into the Wells55 Database by Mike Ball in 2010:

On 6/10/82, the City of Peoria (COP) registered this well (aka Stone Well #1) and was assigned 55-622786. At the time of registration, COP failed to provide ADWR any useful well data such as depth of well, depth and diameter of casing, depth to water, date well completed, etc. On 1/20/89, ADWR issued a Recharge Project Permit (64-518541) with this well identified as the permitted "injection" well. On 7/17/91, COP filed a NOID to DEEPEN this well. Due in part to a policy in effect at this time, instead of retaining the original well number, ADWR issued a drill card with 55-532530 as the new well number. Shortly after the issuance of 55-532530, the policy of issuing a new number whenever a well was deepened or modified was rescinded. The authority to deepen this well was issued to B.L. Weber Group #215. The Well Drillers Report that was submitted by Weber on 12/28/92 indicated that the well had been deepened from a depth of 506-ft to a depth of 1129-ft. Well was cased with 14" dia. steel from the surface to 1128-ft. Depth to water (1992) was at 219-ft. Casing was perforated with 48 3/16" x 2-1/2" cuts/ft from 560-1110 feet. According to the pump installation completion report, the well was equipped with a 200-hp electric turbine pump with a discharge rate of 1000-gpm. On 6/2/10, the Maricopa County Environmental Services Dept (MCESD) issued a New Groundwater Source Approval to COP (PWS # 07-096) with this well (55-532530, local name Stone) identified as the source. As 55-532530 is a duplicate registration of 55-622786, and 55-622786 is the legally correct number assigned to the "Stone" well, the two well files were merged into 55-622786 leaving 55-532530 to be cancelled. File update conducted 6/11/10.

The City suggests that the well number correction be entered into the ROGR database for this well for future years.

The City has previously noted that several turf-related facilities are not captured on the pre-printed forms. The City has added these facilities to Schedule F-2, and will continue to report on water usage for these facilities in future years, unless otherwise directed. Note that all but Vistancia and the Quintero golf course are City-owned.

Schedule D reports amounts of water delivered to other rights. Specifically, CAP water delivered to storage facilities for recharge purposes. The total amount of CAP water recharged, 7,238 acre-feet, is also shown on other forms. Schedule D also contains the CAP exchange water transferred to SRP as part of the accounting of on- and off-Project water transfers during the annual canal dry-up period; this number (562.32 acre-feet) was provided by SRP. Please note that these exchange amounts do not represent additional water received by the City, but serve merely to correctly account for categories of water transferred on paper between on-Project and off-Project areas of the City. The water remained within the City's service area.

The City has noted for the last few years that Schedule D has errors on the pre-printed form. As discussed above, the Type I IGFR 58-112103.0000 (held by Desert Harbor HOA) has well 55-617953 listed as serving this right, but this well was abandoned in accordance with statute and rule in 2000, and has been replaced by well 55-583890. Also, several years ago recharge permit 64-518541.0000 was closed and the associated well 55-622786 was abandoned; neither should be listed. The City recommends that these entries in the ROGR database be corrected accordingly. The City made the necessary corrections to Schedule D to make it more accurate for 2013.

Schedule F-1 Part 1 reports the net change of housing units for the fiscal year July 1, 2012 to June 30, 2013. Only 774 single-family residences were added, and no multi-family units.

On Schedule F-1, Part 2, the total water usage of the City is reported. Following the instructions, the amount of effluent directly delivered for non-potable purposes was not included; this amount is reported on Schedule F-1, Part 3. The total usage by City customers was 27,338.08 acre-feet. Comparing this number with the total amount of potable water produced for delivery to customers, 28,944.07 acre-feet, yields a Lost and Unaccounted For percentage of 5.8%. The range of this figure has been consistent over the last few years.

The final component is the City's reclaimed water, which is reported on Schedule F-1, Part 3 (new form) and Part 3a (old form). On Schedule F-1, Part 3 the total amount of reclaimed water (treated effluent) produced by the City's three Water Reclamation Facilities is reported in Part 1. In Part 2, uses of reclaimed water for recharge, landscaping, and other purposes are shown. The total amount of reclaimed water discharged was zero; all available reclaimed water was utilized by the City. Finally, an older form (Schedule F-1 Part 3A) is attached to show reclaimed water deliveries from each of the Water Reclamation Facilities.

A map of the City's service area is also attached electronically as a pdf file.

If you have any questions or comments, please contact myself at (623)773-7213 or Alan Dulaney at (623)773-7357.

Sincerely,

## ASSURED WATER SUPPLY SUPPLEMENT FOR DESIGNATED PROVIDERS ANNUAL REPORT 2013

**Designated Provider**

City of Peoria

**Right No.**

56-002029.0000

Pursuant to A.R.S. § 45-632 and the assured and Adequate Water Supply Rules, designated water providers are required to supply the following information. Instructions are listed under each section of this form.

Note: If any information pre-printed on this form is incorrect, please make the needed corrections. For any information not already pre-printed on this form, please follow the directions below. All parts must be completed.

### PART 1 - COMMITTED DEMAND

Please provide the estimated future demand in acre-feet for undeveloped, recorded plats that are located in the area as of December 31, 2013. Report demand for residential versus non-residential lots separately.

Number of Residential Lots	Demand per Lot (af/yr)	Total Demand (af/yr)
907	0.52	472
Number of Non-Residential Parcels	Total Demand (af/yr)	
8	18	

Explain how the non-residential demand was calculated. Use a separate sheet if necessary.

### PART 2 - PROJECTED ANNUAL DEMAND

Project the annual water demand in acre-feet for each year indicated. Calculate the increase in demand each year from the previous year. The projected demand in most cases will be greater than the total water use for the current calendar year. Current year demand should equal the total water deliveries in the service area for 2013 as reported on the Schedule F forms, plus system losses and unaccounted for water. Included all water sources used.

Year	Projected Population	GPCD	Total Production (af/yr)	Increase from Previous Year (af/yr)
2013	156,785	188	28,944.07	(287.72)
2014	157,569	188	29,088.79	144.72
2015	158,357	188	29,234.23	145.44
2016	159,149	188	29,380.41	146.17
2017	159,944	188	29,527.31	146.90
2018	160,744	188	29,674.94	147.64
2019	161,548	188	29,823.32	148.37
2020	162,355	188	29,972.44	149.12
2021	163,167	188	30,122.30	149.86
2022	163,983	188	30,272.91	150.61

### PART 3 - WATER QUALITY

- Is the provider currently in compliance with the Arizona Department of Environmental Quality's State water Quality standards and reporting requirements?  Yes  No
- Have any Superfund or WQARF sites been identified within the provider's service area or having existing contaminant plumes migrated to be within one mile of any service area wells?  Yes  No

## ASSURED WATER SUPPLY SUPPLEMENT FOR DESIGNATED PROVIDERS ANNUAL REPORT 2013

**Designated Provider**

City of Peoria

**Right No.**

56-002029.0000

**PART 4 - TOTAL WATER WITHDRAWN, DIVERTED OR RECEIVED - PHYSICAL AVAILABILITY REQUIREMENT**

Please show all sources of water withdrawn, received or diverted in 2013. Refer to Schedule A for the total volume of water withdrawn in 2013. Subtract out deliveries to other rights in the rows indicated below. Water received should match Schedule E. Water delivered should match Schedule D. The total volume of water pumped as reported on Schedule A should match the total water withdrawn on line D.1 in the table below.

The total physically, legally and continuously available supply listed below is provided for your reference:

1. Total water physically, legally and continuously available per designation order	69,117.00	af
---	-----------	----

**A. CAP Water:**

1. CAP received directly (do not include CAP storage credits recovered or CAP stored)	20,104.19	af
2. CAP delivered directly to other rights (do not include individual user deliveries)	7,238.00	af
3. Part 4.A.1 - Part 4.A.2 (total CAP for use within the service area in 2013)	12,866.19	af

**B. Surface Water:**

1. Surface water received directly (do not include surface water storage credits recovered or surface water stored)	9,493.29	af
2. Surface water delivered directly to other rights (do not include individual user deliveries)	0.00	af
3. Part 4.B.1 - Part 4.B.2 (total surface water for use within the service area in 2013)	9,493.29	af

**C. Effluent:**

1. Effluent received directly (do not include effluent storage credits recovered or effluent stored)	11,378.03	af
2. Effluent delivered directly to other rights (do not include individual user deliveries)	10618.46	af
3. Part 4.C.1 - Part 4.C.2 (total effluent for use within the service area in 2013)	759.57	af

**D. Water Withdrawn and Groundwater Received for Use in the Service Area in 2013:**

1. Total Water Withdrawn (include water storage credits recovered and exchange water)	6,948.90	af
2. Groundwater Received from other rights	0.00	af
3. Groundwater delivered to other rights (do not include individual user deliveries)	0.00	af
4. Part 4.D.1 + Part 4.D.2 - Part 4.D.3 (total withdrawn water and groundwater received 2013)	6,948.90	af

Note: Pursuant to the Assured and Adequate Water Supply Rules the director shall consider recovered storage credits when determining physical availability of groundwater.

**PART 5 - GROUNDWATER WITHDRAWALS - CONSISTENCY WITH GOAL REQUIREMENT****A. Total Groundwater for Use within the Service Area in 2013**

1. Total from Part 4.D.4 above	6,948.90	af
2. Water Withdrawn as Recovered Long-Term Storage Credits	0.00	af
3. Water Withdrawn as Recovered Annual Storage Credits	6,948.90	af
4. Part 5.A.1 - Part 5.A.2 - Part 5.A.3 (total groundwater for use in 2013)	0.00	af

**B. Groundwater Exemptions:**

1. Total Groundwater from Part 5.A.4 above	0.00	af
2. Poor Quality Groundwater Withdrawn*	0.00	af
3. Water Logged Groundwater Withdrawn*	0.00	af
4. Drought Exemption Groundwater Withdrawn**	0.00	af
5. Part 5.B.1 above - sum of Parts 5.B.2 through 5.B.4 above	0.00	af
6. Amount from line 5.B.5 above reported to the CAGR as Excess Groundwater	0.00	af
7. Part 5.B.5 above - Part 5.B.6 (groundwater subtracted from allowance account)***	0.00	af

\*Note: Poor quality groundwater and water logged groundwater must be listed on the designation order to qualify for subtraction here.

\*\*Note: Drought exemption groundwater must be applied for in writing for each year in which the exemption is requested.

\*\*\*Note: For information on your groundwater account balance, contact the Office of Assured and Adequate Water Supply.

Please contact the Office of Assured and Adequate Water Supply if you need assistance completing this form.

**ANNUAL REPORT 2013**

Pursuant to the Third Management Plan, municipal water providers are required to supply the following information. This information is used to determine actual and target GPCD numbers for Large Municipal Providers and for planning information for Small Municipal Providers.

**DEFINITION OF A HOUSING UNIT**

A housing unit means a group of rooms or a single room occupied as separate living quarters. Examples of a housing unit include a single-family home, a townhouse, a condominium, an apartment, a permanently setup mobile home or a unit in a multi-family complex. A housing unit may be occupied by a family, a family and unrelated person living together, two or more unrelated persons living together, or by one person. The number of housing units is **not** the number of service connections. Mobile homes in an overnight or limited-stay mobile home park or a unit in a campground, motel, hotel, or other temporary lodging facility are not considered housing units.

**SINGLE-FAMILY HOUSING**

A single-family housing unit is a detached dwelling. Include mobile homes **not** located in a mobile home park.

<b>Single-Family Housing</b>	<b>Housing United</b>
**Single-family housing unit ( <i>not service connections</i> ) as of July 1, 2012.	2 43,848
Indicate the net change (added and deleted) of single-family housing units ( <i>not service connections</i> ) in your service area between July 1, 2012 and July 1, 2013.	3 774
Total single-family housing units ( <i>not service connections</i> ) as of July 1, 2013.	4 44,622

**\*\*This is revised due to 2010 National Census**

**MULTI-FAMILY HOUSING**

A multi-family housing unit is a mobile home in a mobile home park or any permanent housing unit having one or more common walls with another housing unit located in a multi-family residential structure, including a unit in a duplex, triplex, four-plex, condominium development, townhouse development or apartment complex. Include mobile homes if they are located in a mobile home park. Do not include mobile homes that are located in an overnight or limited stay mobile home park.

<b>Multi-Family Housing</b>	<b>Housing United</b>
Multi-family housing unit ( <i>not service connections</i> ) as of July 1, 2012.	5 15,182
Indicate the net change (added and deleted) of multi-family housing units ( <i>not service connections</i> ) in your service area between July 1, 2012 and July 1, 2013.	6 0
Total multi-family housing units ( <i>not service connections</i> ) as of July 1, 2013.	7 15,182

If you received an annual use letter from an irrigation district or municipal provider, please submit a copy of their letter with your 2013 Annual Water Withdrawal and Use Report to validate deliveries received.

Pursuant to Chapter 6 of the Third Management Plan of your Active Management Area, all turf-related facilities are required to supply the following information. Please complete one form per turf-related facility. Instructions are listed on the reverse side of this form.

PART 1 - TURF RELATED WATER USE			
Source	Entity or Water Right Number(s) Supplying Water		Amount (acre-feet)
Groundwater (including in-lieu groundwater)			
Effluent	*Municipal Reclaimed		
	*Other		
Surface Water	*Decreed/Appropriative		
	*Normal Flow		
	*Spillwater		
	*CAP		
Municipal (commingled/potable)	56-002029.0000		487.86
Recovered water (specify type of water)			
Other (Specify)			
<b>SUB-TOTAL OF TURF-RELATED WATER USE</b>			487.86
NON Turf-related water	Meter Readings:	Beginning: _____ End: _____	Subtract <6.32>
additional sheets may be used	Purpose:	Building	
<b>TOTAL TURF-RELATED WATER USE</b>			481.54

### PART 2 - LANSCAPED AND WATER SURFACE AREAS CHANGES

Total turf acreage or percent overseeded 100%

Has there been any lanscape or water surface acreage changes at your facility?

6-310 Monitoring and Reporting Requirements for Turf-Related Facilities: YES  NO

An industrial user who uses water at a turf-related facility that commences watering to any new turfed acres, low water use landscaped area or water surface acres after January 1, 2013 shall submit to the director documentation of the new acres no later than 90 days after commencement of providing water to the new acres or receiving notice of these conservation requirements, whichever is later. The scale of the submitted documents, extent of turf acres, water surface acres, and low water use landscaped area must clearly be shown.

SERVICE AREA MAP UPDATE

## ANNUAL REPORT 2013

ARIZONA DEPARTMENT OF WATER RESOURCES

PROVIDER NAME

CITY OF PEORIA

RIGHT/PERMIT NO.

56-002029.0000

Pursuant to A.R.S. §45-498 each city, town, private water company and irrigation district in an active management area shall maintain a current map clearly delineating its service area and distribution system in the director's office and shall furnish such other related data as the director may require.

### 2013 ANNUAL SERVICE AREA AND OPERATING DISTRIBUTION SYSTEM UPDATES RESPONSE FORM

**Please complete and return THIS FORM along with your UPDATED DISTRIBUTION SYSTEM (WATER LINE) MAP and WATER SERVICE AREA BOUNDARY MAP to ADWR by MARCH 31, 2014 along with your 2013 ANNUAL WATER WITHDRAWAL & USE REPORT.**

#### Service Area Map Contact Information:

If the contact person in your office for service area map updates has changed in the last year, please email ADWR with the updated contact person information. Please send that information to [data\\_management@azwater.gov](mailto:data_management@azwater.gov).

#### Please check the appropriate boxes:

##### OPERATING DISTRIBUTION SYSTEM MAP

Your **operating distribution system** includes your water lines, wells, storage tanks, water treatment facilities and related infrastructure used to treat and distribute water to your customers. If you have added any new water lines, wells, treatment or storage facilities over the last calendar year, please submit an updated map.

Were there changes to the operating distribution system since within the last year?

Yes  No

##### WATER SERVICE AREA BOUNDARY MAP

Your **service area boundary** is an area delineated as a 100 foot buffer around the exterior of your water lines, excluding any small municipal providers, other large municipal providers, or areas that you do not serve (exempt domestic well areas) within the exterior boundary of your water lines.

Were there changes to the area in service within the last year?

Yes  No

If there were changes to either your operating distribution system or your water service area boundary, please submit an updated map(s) in one of the following formats:

- Digital ArcGIS Shapefile
- Digital ArcGIS geodatabase file
- Digital AutoCAD file
- Hardcopy (If no electronic form exists)

**SUBMIT ALL MAP REVISIONS BY MARCH 31, 2014.** If you would like to submit your map by uploading to ADWR's ftp or DocuShare websites, please call the Active Management Area at (602) 771-8585 or email us for instructions at [data\\_management@azwater.gov](mailto:data_management@azwater.gov).

**Re: ANNUAL UNDERGROUND WATER STORAGE REPORT AND ANNUAL REPORT  
FOR THE CITY OF PEORIA BEARDSLEY UNDERGROUND STORAGE FACILITY AND  
VISTANCIA UNDERGROUND STORAGE FACILITY FOR 2013**

---

Dear Ms. Muse:

The City of Peoria has prepared the attached Underground Water Storage Report for 2013 and Annual Recovery Well Permit Report for 2013. The City holds only a single Recovery Well Permit, Number 74-572707.0011. With one exception, all wells used by the City are included on that permit. Thus all recovery from all wells is reported under that number. The single well that is not on the Recovery Well Permit is 55-569672, located in the Quintero subdivision in the far northwest portion of Peoria. This well is included on Peoria's Service Area Permit, and pumps groundwater under that right. However, the well pumped no water in 2013.

**Annual Recovery of CAP Water**

All water pumped by the City in 2013 was recovered water. All recovery wells recovered Central Arizona Project (CAP) water stored at a Groundwater Savings Facility (GSF) and two Underground Storage Facilities (USF) under three Water Storage Permits, Nos. 73-553133.0201, 73-569775.0400 and 73-569776.0400, respectively. These permits are associated with the Salt River Project GSF and Agua Fria Recharge Project (Managed and Constructed). The latter two are operated by the Central Arizona Water Conservation District, the former by Salt River Project. All recovery was annual recovery. No Long-Term Storage Credits were pumped.

All water stored at the Agua Fria Managed Recharge Project, less evaporative losses calculated by CAP, was recovered, leaving zero water for inclusion in Peoria's Long Term Storage Account. Water was also recharged at the Hieroglyphic Mountain Recharge Project. This water stayed in storage, and is thus eligible for addition to the City's Long Term Storage Account as Long-Term Storage Credits, after evaporative losses and the 5% "cut to the aquifer." At the Agua Fria Constructed Recharge Project and the Salt River Project GSF, a portion of the water

stored in 2013 was not recovered as annual recovery. The remainder from both facilities (149.52 acre-feet) is eligible for inclusion in Peoria's Long Term Storage Account. The City recognizes that a "cut to the aquifer" will be applied to the portion of the remainder that was stored at the Agua Fria Constructed Recharge Project (11.13 acre-feet).

### **Long Term Storage Credits and Effluent**

The City also stored Class A+ treated effluent under three Water Storage Permits. Permit 73-552498.0001 is associated with the Beardsley Underground Storage Facility (USF). Permit 73-588558.0500 is associated with the New River–Agua Fria Storage Project (operated by Salt River Project). Peoria's newest Water Storage Permit (73-220046.0000) is associated with Peoria's newest USF, the Vistancia USF. All water stored at these three facilities is eligible for addition to the City's Long Term Storage Account. Because the stored water is effluent, no "cut to the aquifer" is anticipated (A.R.S. § 45-852.01.C.3.a).

All evaporation percentages for all storage facilities operated by others were provided by Central Arizona Water Conservation District and Salt River Project, except for the Beardsley USF, where evaporation was taken from the ADWR-provided spreadsheet. Because the new Vistancia Underground Storage Facility consists of two vadose zone recharge wells directly connected to the Jomax Water Reclamation Facility, and is not exposed to the atmosphere, no evaporation was calculated for this closed system.

### **Annual Report for the Beardsley USF**

Also attached you will find the Annual Report for the Beardsley USF, which is owned and operated by the City. For 2008, ADWR provided a standardized Excel spreadsheet for reporting the information required by USF Permit No. 71-552497.0004. This efficient spreadsheet continues to be utilized for the 2013 report. A copy of the completed spreadsheet has been sent to ADWR via e-mail.

In the spreadsheet, the readings of Meter No EFF-FIT-101 are expressed in Millions of Gallons per Day (MGD). Meter No. EFF-FIT-102 was not utilized, and all readings are thus zero. In the Daily Wet/Dry Status portion, the City used only "W" for wet and "D" for dry as requested by ADWR.

In the Water Level Measurements portion, elevations are reported in feet above mean sea level (amsl). All monitor wells were measured for static water level elevation on a monthly basis.

In 2013, the City stored treated Class A+ effluent from the City's Beardsley Water Reclamation Facility to the City's Beardsley USF throughout the year, as summarized below:

Total Reclaimed Water Delivered in 2013 (acre-feet)	2643.48
Total Amount Evaporated in 2013 (acre-feet)	43.93
Total Reclaimed Water Recharged in 2013 (acre-feet)	2799.55

The permit for this USF, No. 71-552497.0004, allows the facility up to a maximum storage of 210,580 acre-feet per year, phased in over three more phases over the next 18 years. The City has not approached the maximum annual amount of storage allowed under the permit at any time in the last several years.

### **Annual Report for the Vistancia USF**

Also attached you will find the Annual Report for the new Vistancia USF, which is owned and operated by the City. The USF Permit Number for the Vistancia USF is 71-220046.0000. The total volume of reclaimed water stored here was 115.83 acre-feet. This system is totally closed from the atmosphere, and hence no evaporation was calculated.

This new facility is permitted to store only up to 673 acre-feet per year, and the City does not expect this limit to be approached for many years. Like the Beardsley USF, the reporting for the Vistancia USF is presented in a spreadsheet provided by ADWR. It should be noted that the single monitor well, POC-1, remained dry for the entire reporting period. The monitor well was checked twice a month for almost half the year, and this periodicity is being maintained into 2014.

One paper copy and one electronic copy (on CD) for all reports are attached. Please feel free to contact me with any questions or comments at your convenience, at (623)773-7213 or [robin.bain@peoriaaz.gov](mailto:robin.bain@peoriaaz.gov), or alternatively, contact Alan Dulaney, Water Policy Administrator, at (623)773-7357 or [alan.dulaney@peoriaaz.gov](mailto:alan.dulaney@peoriaaz.gov).

Sincerely,

A handwritten signature in blue ink that reads "Robin E. Bain".

Robin E. Bain, P.E., BCEE, PWLF  
Environmental Resources Manager

\* If well is dry, type the word **dry** in the DTW (feet below MP) column.

amsl - above mean sea level; DTW - depth to water; bls - below land surface; MP - measuring point

**Meter Readings Worksheets:**

Is using the sheets for the first time, insert the monitoring point ID name into the cell titled 'Meter ID' for each meter/sheet  
Insert the reporting year in cell B5 (just above the table) on the first worksheet only.

Totalizer readings need to be entered daily in the totalizer readings column. All other fields calculate automatically.

In the box at the top of each totalizer reading column, put the reading from the last day of the prior month.

All totalizer volumes need to be entered leading up to the final reading taken in order for the daily volumes to calculate properly.

The spreadsheet has not been adjusted to account for the multiplication factor on the totalizer. For example, if the totalizer is labeled "x 1000", then the reading on the totalizer must be multiplied by 1000 before being entered into the spreadsheet.

**Water Quantity Summary Worksheet:**

No data entry is needed. The page will autofill.

**Water Level Measurements Worksheet:**

Enter the water level measurement date in the "measurement date" column and the depth to water from the measuring point in the "DTW (feet below MP)" column. The other cells will automatically calculate. If the monitoring well is dry, enter "dry" for the measurement.

The hydrograph will automatically fill, and the scale will adjust according to the measurements entered. The scale might need manual adjustment for the dates.

# ANNUAL RECOVERY WELL REPORT

## RW - SUMMARY 2013

PERMIT HOLDER  
CITY OF PEORIA  
8401 W MONROE ST  
PEORIA AZ 85345-6560

**PERMIT NUMBER**

74-572707.0011

**LONG TERM STORAGE ACCOUNT NUMBER**

70-441146.0000

REPORTING PARTY  
74-572707.0011  
CITY OF PEORIA  
ATTN: ROBIN BAIN  
8401 W MONROE ST  
PEORIA AZ 85345

PHOENIX AMA (602) 771-8585

If any of the information preprinted on this report is incorrect, please make the necessary changes.

**PART I WATER RECOVERED**

- A) Total volume of water in acre-feet recovered as annual recovery from box 10 of RW - SCHEDULE 74: 6948.90 ACRE - FEET
- B) Total volume of water in acre-feet recovered as Long Term Storage credits from box 11 of RW - SCHEDULE 74: 0 ACRE - FEET
- C) Total volume of water recovered in acre-feet from box 12: 6948.90 ACRE - FEET

**PART II LONG TERM STORAGE RECOVERY FEE**

Enter volume from Part I.B. above: 0 ACRE - FEET X \$1.00 FEE = \$ TOTAL

**PART III LATE FEES**

Complete this section if filing after March 31. Note: A portion of a month after March 31 is counted as a full month.

- A) Enter number of months late (Maximum of 6)
- B) Calculate Late Report Fee (\$25.00 X number of months late) \$
- C) Calculate Late Payment Fee (Recovery fee calculated in Part II X 10% X number of months late) \$

**PART IV TOTAL FEES DUE**

Total fees due (Part II + Part III.B + Part III.C): \$ 0

Mail or hand deliver this report, together with the appropriate schedules, worksheets, and fees to the Arizona Department of Water Resources. If mailed, the report must be postmarked no later than March 31, 2014. If hand delivered, the report must be received by the Department's Annual Reports & Planning Section no later than 5:00 PM on March 31, 2014.

**REPORTS FILED AFTER MARCH 31, 2014 ARE SUBJECT TO LATE FEES [ARS § 45-875.01(E)].**

I hereby certify, under penalty of perjury, that the information contained in this report is, to the best of my knowledge and belief, true, correct and complete.

# WORKSHEET W-1 2013

GROUNDWATER RIGHT/PERMIT/ 56-002029.0000

BMP Farm Unit NO.

1 DWR Well Registration No. 55-805339	10 Q	40 Q	160 Q	LOCATION		
	NW	NW	NW	2	3.0N	1.0E
2 TYPE OF MEASURING DEVICE TOTALIZER	MAKE/MODEL ENDRESS & HAUSER					
SIZE 12"	UNITS MEASURED 1000 GAL					
INSTALLATION OR OVERHAUL DATE						
3 POWER CO. NAME ARIZONA PUBLIC SERVICE	ACCOUNT NO. 937347282		POWER METER NO. R67963			
ADOT	ENERGY CONSUMPTION 10,560		UNITS KWH			

4 DOES ENERGY METER SERVE USES OTHER THAN THE WELL PUMP? Yes  No   
ENTER "Y" OR "N" IN COLUMN 5 OF SCHEDULE A

WATER TOTALIZING METER READINGS		
5 INITIAL	6 ENDING	7 DIFFERENCE
748,242	748,242	0

IF METER WAS REPLACED DURING THE YEAR, INDICATE BEGINNING AND ENDING READING FOR EACH METER IN THE BOXES ABOVE.

8 ACRE FEET	9 BREAKDOWN ESTIMATE	
	0.00	0

Enter total Acre-feet Shown in 10 in Column 13 of Schedule A

10 TOTAL IN ACRE-FEET	
0.00	

1 DWR Well Registration No. 55-213219	10 Q	40 Q	160 Q	LOCATION		
	SE	SE	SW	35	5.0N	1.0W
2 TYPE OF MEASURING DEVICE TOTALIZER	MAKE/MODEL					
SIZE	UNITS MEASURED 1000 GAL					
INSTALLATION OR OVERHAUL DATE						
3 POWER CO. NAME ARIZONA PUBLIC SERVICE	ACCOUNT NO.		POWER METER NO.			
VISTANCIA #4	ENERGY CONSUMPTION 6,480		UNITS KWH			

4 DOES ENERGY METER SERVE USES OTHER THAN THE WELL PUMP? Yes  No   
ENTER "Y" OR "N" IN COLUMN 5 OF SCHEDULE A

WATER TOTALIZING METER READINGS		
5 INITIAL	6 ENDING	7 DIFFERENCE
0	0	0
