The purpose of this document is to substantially amend the City of Peoria’s Annual Action Plan for the plan year 2012. Annual Action Plan 2012 Substantial Amendment #1 proposes the following changes to the Integrated Disbursement and Information System (IDIS) project/activity reported as IDIS 259:

	<b>Project/Activity Title</b>	<b>Project/Activity Description</b>	<b>CDBG Regulatory Citation</b>	<b>CDBG Matrix Code</b>	<b>National Objective</b>	<b>Proposed Outcome</b>
<b>Current</b>	Habitat for Humanity- Foreclosure purchase/rehabilitate/resale	Purchase, rehabilitation and placement of income qualified homeowners in previously foreclosed single family homes.	570.201(n)	13-Direct Homeownership Assistance	Low-Mod Housing (LMH)	2 Households
<b>Proposed</b>	Habitat for Humanity- Purchase/rehabilitate/resale, lot acquisition and infrastructure development	Purchase, rehabilitation and placement of income qualified homeowners in previously foreclosed single family homes and/or lot acquisition and development support for the purpose of affordable housing development	570.201(n)	13-Direct Homeownership Assistance	Low-Mod Housing (LMH)	2 Households

This amendment will provide the funding subrecipient, Habitat for Humanity, with the ability to perform lot acquisition and related development support in addition to the purchase, rehabilitation and resale of previously foreclosed homes. This amendment aims to provide a broader and more flexible activity scope which, in turn, will allow for the greater capability to deliver affordable housing projects to income eligible citizens. The CDBG investment in this project will remain unchanged at \$215,000, none of which has been spent to date.
