

Firearms Classes

Our Intro to Firearms classes in January were a huge hit. Many of you showed an interest in continuing to expand your knowledge about handguns. We are working with Shootersworld to introduce a new series of classes in firearm training. Take them in progression or pick and choose the ones that interest you the most. All classes held at Shootersworld: 8966 W. Cactus Rd., Peoria.

Handgun Selection and Range Protocol

If you have an interest in firearms but don't know where to start, this class will be your first step. This is an entry level handgun class designed for people with minimal or no formal handgun training. This class will encompass the decision process on what goes into selecting a handgun. Whether the weapon is for recreational shooting or personal protection, we will outline the different points that should be considered before you make your purchase. Participants will also be introduced to shooting range protocol. Whether you are renting or bringing your own weapon to the range, you will leave with a clear understanding of what to do when you come to a range to shoot. How to rent weapons at the counter and reserve range time, and exactly what is expected of all individuals when you enter the Shootersworld range will all be covered in this class. This class does not include live shooting during class.

**#69553 - Wednesday, February 29, 2012,
9:30am – 11:30am.....\$30**

Six Fundamentals of Marksmanship

This class will focus on the Six Fundamentals that all good marksmen employ. From position, grip and sight alignment to breath control, trigger squeeze and follow through. Instructors will guide you through this course and start you on your way to becoming an accomplished shooter. This class will consist of one hour of classroom instruction and one hour of range time. Gun rental and range time are included. Ammunition is an extra cost. You are welcome to bring your own weapon and ammunition.

**#69560 - Tuesday, March 27, 2012,
9:30am – 11:30am.....\$40**

Gun Cleaning, Maintenance and Storage

The last class in the series will cover cleaning, maintenance and storage of your weapon. This class will teach proper safety and disassembly/assembly techniques of various styles of handguns.

**#69558 - Tuesday, April 17, 2012,
9:30am – 11:30am.....\$30**
