

CHAPTER 5 – BUILDINGS AND BUILDING REGULATIONS

Sec. 5-108. City's right of entry and to information.

The officer may enter at any reasonable time any property served by a connection to the public water supply or distribution system of the city for the purpose of verifying the presence or absence of cross-connections. The officer or his authorized agent may enter at any reasonable time any property served by a connection to the public water supply or distribution system of the city for the purpose of verifying information submitted by the customer regarding the required cross-connection control inspection. On demand the owner, lessees or occupants of any property so served shall furnish to the officer, any information which he may request regarding the piping system or water use on such property. The refusal of such information, when demanded, shall, within the discretion of the officer, be deemed evidence of the presence of improper connections as provided in this division. This shall hold true for any approved water supply from any source to the citizens of the city, be it private, auxiliary or emergency.
